November 7, 2008

Dear Parent or Guardian:

During the 2007-2008 school year, your child participated in the *New Hampshire Alternate Assessment* (NH-Alt). The report sent with this letter shows the assessment scores your child received. If your child was in grade 2, 3, 4, 5, 6, 7 or 10 in 2007-2008, then this report will show you the progress they made in learning reading and mathematics skills during the year. If your child was in grade 4, 7 or 10, then you will *also* see a score showing progress they made in learning writing skills. Lastly, if your child was in grade 4, 8 or 11, you will see a score showing progress they made in learning science skills.

We are sending this letter along with your child's report and a few extra pages called: General Information for Parents, Frequently Asked Questions, and The Interpretive Guide. I hope these materials will give you the information you need to understand and make sense of your child's NH Alternate Assessment Student Report.

If, when you have had a chance to look over this packet, you discover that you still have questions, please call me at the office. I welcome your call. My number is: (603) 271-7383.

Sincerely,

A handwritten signature in cursive script that reads "Gaye V. Fedorchak".

Gaye Fedorchak
NH State Alternate Assessment Supervisor
