

The National Assessment of Educational Progress (NAEP) assesses reading in three content areas in grade 8: reading for literary experience, to gain information, and to perform a task. The NAEP reading scale ranges from 0 to 500.

**Overall Reading Results for New Hampshire**

- In 2007, the average scale score for eighth-grade students in New Hampshire was 270. This was not significantly different from their average score in 2005 (270) and was not significantly different from their average score in 2003 (271).<sup>1</sup>
- New Hampshire's average score (270) in 2007 was higher than that of the nation's public schools (261).
- Of the 52 states and other jurisdictions that participated in the 2007 eighth-grade assessment, students' average scale score in New Hampshire was higher than those in 36 jurisdictions, not significantly different from those in 12 jurisdictions, and lower than those in 3 jurisdictions.<sup>2</sup>
- The percentage of students in New Hampshire who performed at or above the NAEP *Proficient* level was 37 percent in 2007. This percentage was not significantly different from that in 2005 (38 percent) and was not significantly different from that in 2003 (40 percent).
- The percentage of students in New Hampshire who performed at or above the NAEP *Basic* level was 82 percent in 2007. This percentage was not significantly different from that in 2005 (80 percent) and was not significantly different from that in 2003 (81 percent).

**Percentages at NAEP Achievement Levels and Average Score**

NOTE: The NAEP grade 8 reading achievement levels correspond to the following scale points: *Below Basic*, 242 or lower; *Basic*, 243–280; *Proficient*, 281–322; *Advanced*, 323 or above.

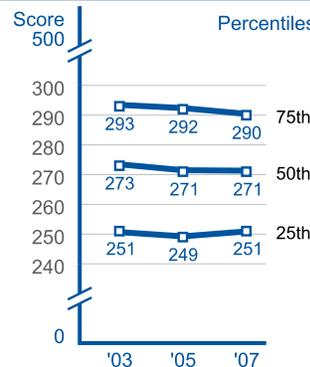

**Performance of NAEP Reporting Groups in New Hampshire: 2007**

Reporting groups	Percent of students	Average score	Percent below Basic	Percent of students at or above Basic	Percent of students at or above Proficient	Percent Advanced
Male	50	264	23	77	31	2
Female	50	275	13	87	44	4
White	94	270	18	82	37	3
Black	1	‡	‡	‡	‡	‡
Hispanic	2	252	40	60	20	1
Asian/Pacific Islander	2	‡	‡	‡	‡	‡
American Indian/Alaska Native	#	‡	‡	‡	‡	‡
Eligible for National School Lunch Program	16	257	31	69	25	1
Not eligible for National School Lunch Program	81	272	16	84	40	3

**Average Score Gaps Between Selected Groups**

- In 2007, male students in New Hampshire had an average score that was lower than that of female students by 11 points. In 2003, the average score for male students was lower than that of female students by 11 points.
- Data are not reported for Black students in 2007, because reporting standards were not met. Therefore, the performance gap results are not reported.
- In 2007, Hispanic students had an average score that was lower than that of White students by 18 points. Data are not reported for Hispanic students in 2003, because reporting standards were not met.
- In 2007, students who were eligible for free/reduced-price school lunch, a proxy for poverty, had an average score that was lower than that of students who were not eligible for free/reduced-price school lunch by 15 points. In 2003, the average score for students who were eligible for free/reduced-price school lunch was lower than the score of those not eligible by 18 points.
- In 2007, the score gap between students at the 75th percentile and students at the 25th percentile was 40 points. In 2003, the score gap between students at the 75th percentile and students at the 25th percentile was 43 points.

**Reading Scores at Selected Percentiles**

NOTE: Scores at selected percentiles on the NAEP reading scale indicate how well students at lower, middle, and higher levels performed.

# Rounds to zero.

‡ Reporting standards not met.

\* Significantly different from 2007.

↑ Significantly higher than 2005. ↓ Significantly lower than 2005.

<sup>1</sup> Comparisons (higher/lower/narrower/wider/not different) are based on statistical tests. The .05 level was used for testing statistical significance. Statistical comparisons are calculated on the basis of unrounded scale scores or percentages. Comparisons across jurisdictions and comparisons with the nation or within a jurisdiction across years may be affected by differences in exclusion rates for students with disabilities (SD) and English language learners (ELL). The exclusion rates for SD and ELL in New Hampshire were 3 percent and "percentage rounds to zero" in 2007, respectively. For more information on NAEP significance testing see <http://nces.ed.gov/nationsreportcard/reading/interpret-results.asp#statistical>.

<sup>2</sup> "Jurisdictions" refers to states and the District of Columbia and the Department of Defense Education Activity schools.

NOTE: Detail may not sum to totals because of rounding and because the "Information not available" category for the National School Lunch Program, which provides free and reduced-price lunches, and the "Unclassified" category for race/ethnicity are not displayed. Visit <http://nces.ed.gov/nationsreportcard/states/> for additional results and detailed information.
