Definitions:

NECAP SGP = Median Student Growth Percentile (a combination of Growth and Performance) based on comparing the growth of students with similar assessment histories. Reading and Mathematics Median Growth Percentiles are weighted more than Science and Writing Achievement scores.

Points earned for Reading and Mathematics Student Growth Percentile (SGP) :

The number of points a school earns for its NECAP Student Growth Percentile (SGP) depends first on whether or not its Median SGP met the required target and then on the actual Median SGP.

Did the school meet its Median Student Growth Percentile Target?
