Compliance Improvement Monitoring Visit
Conducted on October 31, November 3, 4, & 5, 2014
Report Date: December 30, 2014

Overview of the Special Education Monitoring Process

New Hampshire has a responsibility, under federal law, to have a system of general supervision that monitors the implementation of the Individuals with Disabilities Education Act (IDEA) by school districts. The general supervision system is accountable for enforcing IDEA and the New Hampshire Rules for the Education of Children with Disabilities and for ensuring continuous improvement. As stated in section 616 of 2004 amendments to the IDEA, "The primary focus of Federal and State monitoring activities described in paragraph (1) shall be on -

- (A) Improving educational results and functional outcomes for all children with disabilities; and
- (B) Ensuring that States meet the program requirements under this part, with a particular emphasis on those requirements that are most closely related to improving educational results for children with disabilities."

There are eight components that comprise NH's general supervision system. It is important to note that although the components are separate, the components connect, interact and articulate requirements to form a comprehensive system. The general supervision system for NH has the following components.

- State Performance Plan (SPP)
- Policies, Procedures, and Effective Implementation
- Data on Processes and Results
- Targeted Technical Assistance and Professional Development
- Effective Dispute Resolution
- Integrated Monitoring Activities
- Improvement, Correction, Incentives and Sanctions
- Fiscal Management

The special education compliance monitoring review is one method that the Bureau of Special Education utilizes to implement the general supervision system. The special education compliance monitoring review is comprised of:

- Policies, Procedures, and Effective Implementation
 - District forms used to implement the special education process
- Special Education Personnel
- Monitoring of Special Education Process
- Improvement, Correction, Incentives and Sanctions

The intent of the special education compliance monitoring review is to:

- Improve student outcomes for students with IEPs
- Determine compliance
- Ensure districts understand and are implementing special education requirements in accordance with the *New Hampshire Rules for Education of Children with Disabilities*
- Improve special education policies, procedures and practices

The Bureau of Special Education followed a standard process to select districts to participate in the special education compliance monitoring review. Each district was sorted into a cohort group based on the current October 1st fall enrollment. The Bureau of Special Education in conjunction with the Bureau of Data Management reviewed the previous year state assessment data for grades 3 through 8 for Reading and Math to determine the district in each cohort group that had the widest achievement gap for students without disabilities compared to students with disabilities.

Once a district was selected, the Bureau of Special Education contacted the district to discuss the special education compliance monitoring review with the school administration. The Contoocook Valley School District was selected through this process. The Contoocook Valley School District is comprised of eleven schools with a grade span of Preschool through grade 12. The district fall enrollment on October 1, 2013, shows there were a total of 2,365 enrolled in the Contoocook Valley School District. The District Data Profiles for October 1, 2013 indicated that there were 334 enrolled in the Contoocook Valley School District who were identified with disabilities.

The Bureau of Special Education also provided targeted professional development regarding the special education compliance review process and completion of the self-assessment data collection form. The district was provided with a list of 86 students with disabilities representative of the school district based on grade level, disability, gender, and case manager. At the time of the selection of students, the information entered into NHSEIS indicated that there were no students enrolled in charter schools for the Contoocook Valley School District. During the onsite visit, the monitoring team selected 60 of the 86 student files to review.

The monitoring visit, conducted on October 31, November 3, 4, & 5, 2014 consisted of NHDOE team members and a special education administrator from another district verifying district identified evidence on the self-assessment data collection form. While the district completes the entire self-assessment, each file is reviewed using half of the self-assessment items. The self-assessment is divided into two sections, and on the day(s) of the monitoring visit, each of the files that were selected is assigned a section to be reviewed by the monitoring team. Half of the files are reviewed for one part of the self-assessment, and the other half are reviewed using the second part of the self-assessment.

The district was encouraged to invite their special education staff as well as related service providers to attend the review. Many of the district special education staff attended the review, which provided another targeted professional development opportunity. Staff members were provided the opportunity to learn about implementing IDEA and the *New Hampshire Rules for the Education of Children with Disabilities* and to engage in a professional discussion of best practices for ensuring improved outcomes for students with disabilities.

The New Hampshire Department of Education, Bureau of Special Education review members for this compliance monitoring review included Mary Steady, Administrator for

the Office of Safe Schools and Healthy Students, and Education Consultants: Kristina Paul, Deborah Krajcik, Ruth Littlefield, Mary Lane, Bridget Brown, Amy Jenks, and Lori Noordergraaf. The special education administrator participating in this compliance improvement monitoring review was Ryan Marsh, Special Education Director from Moultonborough.

Policies, Procedures, and Effective Implementation

Each district must have policies, procedures, and effective implementation of practices that are aligned and support the implementation of IDEA and the *New Hampshire Rules for the Education of Children with Disabilities*. As part of the special education compliance review, the monitoring team reviewed the district's policies and procedures manual for compliance.

In addition, the Bureau of Special of Education cross checked the Annual Request for Federal Special Education Funds FY 14, IDEA Part B Section 611 Assurances, and District Policies to Support Assurance Standards with the district's policy and procedures manual to ensure that document name, date adopted, and pages were valid. Districts are required to submit assurance statements with their local application for IDEA funds.

The monitoring team reviewed the district's policies and procedures manual for the following components.

- Child Find pursuant to 34 CFR 300.111; Ed 1105; Ed 1126.01(b)(1)
- Confidentiality of Information pursuant to 34 CFR 300.610 – 300.627; Ed 1119; Ed 1126.01(b)(2)
- Special Education Facilities, Personnel and Services pursuant to Ed 1126.01(b)(3)
- Personnel Development pursuant to 34 CFR 300.207; Ed 1126.01(b)(4)

- Instructional Materials in Accessible Formats pursuant to 34 CFR 300.172; Ed 1126.01(b)(12)
- Disciplinary Procedures for Children with Disabilities pursuant to 34 CFR 300.530 – 300.536; Ed 1124
- Dispute Resolution
 - Complaint Procedures pursuant to 34 CFR 300.153; Ed 1121
 - Alternative Dispute Resolution pursuant to 34 CFR 300.506; Ed 1122
 - Administrative Due Process Hearing Procedures pursuant to 34 CFR 300.507 – 300.518; Ed 1123
- Local Education Agency Request for Special Education Funds pursuant to Ed 1126.01

Policies and Procedures

Based on the review of the Contoocook Valley School District’s policies and procedures manual, the monitoring team determined there were **no findings of noncompliance**.

Effective Implementation of Practices

As part of the review of The Contoocook Valley School District’s forms implementing the special education process, the Bureau of Special Education also looked for evidence that the policies and procedures were effectively being implemented. The NHDOE determined that there were **three findings of noncompliance** that must be corrected as soon as possible but no later than 3 months from the date of this report.

The monitoring team reviewed the following district forms to ensure the implementation of the special education process:

- Record of Access pursuant to 34 CFR 300.614; Ed 1119.02(a)
- Notice of IEP Meeting pursuant to 34 CFR 300.322; Ed 1103.02(a)
- 10 Day Wavier pursuant to Ed 1103.02(b)
- Written Prior Notice pursuant to 34 CFR 300.503; Ed 1120.03(a)(b)
- Determining the Existence of a Specific Learning Disability pursuant to 34 CFR 300.309 & 300.311; Ed 1107.01(a)
- Evaluation Report pursuant to Ed 1107.05(a)
- Procedural Safeguard Notice pursuant to 34 CFR 300.504; Ed 1120.03(b)

1. When the monitoring team was verifying the evidence of compliance, the team reviewed the form "Evaluation Team Report". This form does comply with Ed 1107.05 (a),(b) (1&2) as it includes a space for each evaluation procedure, test record or report as well as a space for a written summary of the findings of the procedure, test, record and/or report. However, it is not in compliance with Ed 1107.05(b)(3) in that the report does not include information regarding the parent's rights of appeal in accordance with Ed 1123 and a description of the parent's right to an independent evaluation in accordance with Ed 1107.03.

COMPLIANCE CITATIONS	AREA OF COMPLIANCE
1. Ed 1107.05(b)(3); Ed 1107.03	Evaluation Report
<p>Corrective Action regarding the Implementation of the Regulations: The Contoocook Valley School District must immediately notify staff to stop using the district created form "Evaluation Team Report". The Contoocook Valley School District must revise its Evaluation Team Report form to meet the criteria Ed 1107.05(b)(3). Provide the revised form that addresses the parent's rights of appeal in accordance with Ed 1123 and a description of the parent's right to an independent evaluation in accordance with Ed 1107.03, as well as the evidence of how school staff is informed of the new practice to the NHDOE as soon as possible but no later than 3 months from the date of this report.</p>	

2. When the monitoring team was verifying the evidence of compliance, the team reviewed the form "Written Prior Notice". This form does not comply with the requirements of 34 CFR 300.503 (b)(1-7) regarding the contents of the notice.

COMPLIANCE CITATIONS	AREA OF COMPLIANCE
2. 34 CFR 300.503(b)(1-7); Ed 1120.03(b)	Written Prior Notice
<p>Corrective Action regarding the Implementation of the Regulations: The Contoocook Valley School District must immediately notify staff to stop using the district created form "Written Prior Notice". The Contoocook Valley School District must revise its Written Prior Notice form to meet the criteria 34 CFR 300.503(b)(1-7) to include all of the required components of the notice, including: 1) A description of the action proposed or refused by the agency; 2) an explanation of why the agency proposed or refused to take the action; 3) a description of each evaluation procedure, assessment, record, or report the agency used as a basis for the proposed or refused action; 4) a description of other options that the IEP team considered and the reasons why those options were rejected; 5) a description of other factors that were relevant to the LEA's proposal or refusal; 6) a statement that the parents of a child with a disability have protection under the procedural safeguards of this part, and if this notice is not an initial referral for evaluation, the means by which a copy of a description of the procedural safeguards can be obtained; 7) sources for parents to contact to obtain assistance in understanding the Written Prior Notice. Provide the revised form as well as the evidence of how school staff is informed of the new practice to the NHDOE as soon as possible but no later than 3 months from the date of this report.</p>	

3. When the monitoring team was verifying the evidence of compliance, the team reviewed the form “Parental Permission to Waive Time Limits”. This district created form requests parental permission to waive / extend time limits for various processes. The only waiver of time limits permitted by IDEA and/or NH Rules is the 10 day written invite to the meeting with written consent from the parents. The only extension permitted by IDEA and/or NH Rules is the 45 days for the evaluation process and the 14 day time limit for consent of the parent and LEA mutually agree to an extension.

3. Ed 1103.02(b); Ed 1107.01(d); Ed 1120.04(d)	Evaluation; Parental Consent
<p>Corrective Action regarding the Implementation of the Regulations: The Contoocook Valley School District must immediately notify staff to stop using the district created form “Parental Permission to Waive Time Limits”. The Contoocook Valley School District must revise its form to reflect Ed 1103.02(b)-the requirements in 1103.02(a) shall be waived with the written consent of the parent. The Contoocook Valley School District must revise its form to reflect Ed 1107.01(d)-a no more than fifteen day extension for evaluations, and 1120.04(d)-a 14-day time limit for consent if the parent and LEA mutually agree to an extension. Provide the revised forms as well as the evidence of how school staff is informed of the new practice to the NHDOE as soon as possible but no later than 3 months from the date of this report.</p>	

Recommendations to address problematic practices that do not represent noncompliance

During the monitoring visit, it had been revealed that the district has been engaging in some practices that have the potential to become problematic. The NHDOE has identified these practices and potential remedies to these practices. Whereas these practices do not rise to the standard of noncompliance, and therefore require no corrective actions, the NHDOE believes that the practices are noteworthy to be addressed.

- In reviewing the Contoocook Valley School District’s policies and procedures manual, it was noted that there was a list entitled “Special Education File Access List, as of August 2014”. This list noted that the district staff members who are included on this form may access students’ special education files without written parental consent. This list included many staff and contracted providers who are not necessarily authorized personnel. The Contoocook Valley School District should consider eliminating this list from the policies and procedures manual and teacher handbook, as it could pose potential conflicts and confusion with the lists posted on individual schools’ special education files for Authorized Personnel.
- In reviewing the Contoocook Valley School Districts lists of Authorized Personnel posted on the special education file cabinets in individual schools, it was noted that

several schools included regular education teachers on this list. Authorized personnel are those employees of the district who can access the special education file without having to sign the record of access located in the file itself. This generally includes those staff members who would regularly need to access the student's special education information as a regular matter of course in their job. This would generally include employees of the district who are special education teachers, related service providers, etc. Classroom teachers do not typically have to regularly access a student's special education file, and therefore would need to sign the record of access. The Contoocook Valley School District should consider updating this list to include only those employees who would not need to sign the record of access.

Special Education Personnel

The Bureau of Special Education has reviewed the Contoocook Valley School District special education staff certifications using the New Hampshire Educator Information System. The review process was for special education staff employed during 2014-2015 school year.

The data for Contoocook Valley School District was generated and reviewed prior to the visit. Each special education staff member's endorsement was compared to the subject/assignment. This process was used for special educators who hold Education Intern License 4 (INT4), Beginning Educator Certification (BEC) and Experienced Educator Certification (EEC). If the endorsement was appropriate to the subject/ assignment then the renewal date of the endorsement was verified to ensure that the endorsement was current.

If there was a discrepancy between endorsement and the subject/assignment, the district was given an opportunity to verify the data. If the discrepancy could not be resolved a finding of noncompliance was made based on Personnel Standards pursuant to Ed 1113.12, 34 CFR 300.18, and 34 CFR 300.156.

Based on the review of the special education staff certifications, the NHDOE determined there was a **finding of noncompliance**.

<p>Corrective Action regarding the Implementation of the Regulations: The Contoocook Valley School District must provide the NHDOE with evidence that resolves the discrepancies between subject/assignments and endorsements with the three staff members at the Contoocook Valley Regional High School. Provide the updated information to the NHDOE as soon as possible but no later than 6 months from the date of this report.</p>

- A staff member has a Subject/Assignment in Special Education-Math Content; however has an endorsement in Mathematics (7-12).

The district was notified of the concerns listed above for each of the schools listed. Staff specific information was shared with the district.

Monitoring of Special Education Process

Districts are responsible for implementing the special education process in accordance with IDEA and the *New Hampshire Rules for the Education of Children with Disabilities*. The self-assessment data collection form highlights the district's understanding of the requirements of IDEA and the *New Hampshire Rules for the Education of Children with Disabilities* and was reviewed during the monitoring visit. Each area of compliance on the self-assessment data collection form clearly outlines whether the compliance is either a requirement of both IDEA and the *New Hampshire Rules for the Education of Children with Disabilities* or a requirement of solely the *New Hampshire Rules for the Education of Children with Disabilities*. During the monitoring visit, the monitoring team verified the evidence of compliance based on review of the student file, using the district's self-assessment as a resource.

Based on this review, the Bureau of Special Education identified findings of noncompliance with IDEA and the *New Hampshire Rules for the Education of Children with Disabilities*. The findings include the compliance citation, the area of compliance, the specific component of the regulation, and the required corrective actions, which include timelines for demonstrating correction of noncompliance. Student specific information will not be included in the report but will be provided to the district's Special Education Director.

There are two main components to the corrective actions entitled, "*Corrective Action of Individual Instance of Noncompliance*" and "*Corrective Action Regarding the Implementation of the Regulations*". The first component, "corrective action of individual instance of noncompliance", is for any noncompliance concerning a child-specific requirement. There must be evidence that the district has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the district. These areas must be corrected as soon as possible, with state timelines given in the report for each area. The NHDOE will return to the district, typically within 3 months from the date of the report, to verify compliance for each individual instance identified in the report. The second component, "corrective action regarding the implementation of the regulations", would typically involve the district providing professional development training to appropriate

staff with regards to areas found to be in noncompliance. The NHDOE will review updated data, collected after the identification of noncompliance to demonstrate that the district is correctly implementing the specific requirement. This involves a follow-up on-site review of new files selected, typically within one year of the original on-site compliance monitoring.

Overview of the Specific Findings of Noncompliance

The chart below identifies the area of compliance based on student files that were reviewed by the compliance and improvement monitoring team during the onsite visit. The chart is broken down into the **compliance citations** and **area of compliance**. The compliance citations are based on the *CFR* found in the Federal regulations of IDEA and the *Ed* found in the administrative rules of the New Hampshire Rules for the Education of Children with Disabilities. The chart aligns the regulatory components to the numbered questions in the self-assessment. Regulatory components and self-assessment numbers are bolded in instances where noncompliance was noted by the compliance and improvement monitoring team.

The **review status** identifies the **number of files reviewed** for the self-assessment question as well as the number of files that were found to be in compliance. For example “30 out of 30 files demonstrated a record of parties that have obtained access to the education records collected or used under Part B of the Act.” Simply put, 30 files were reviewed and 30 files were found to be in compliance.

In cases where there was a finding of noncompliance for a particular student, the chart identifies the **Corrective Action of Individual Instance of Noncompliance**. This section of the chart states the student file that was used as evidence to support the noncompliance of the regulation. In the case of an individual instance of noncompliance, the corrective action would generally involve the IEP team convening to resolve the finding of noncompliance. Timelines for these corrective actions are also noted. The NHDOE will return to the district approximately three months following the district receiving written notification of noncompliance (the report) to review all student files in which there were findings of noncompliance in order to verify compliance with the corrective action stated in the report.

Lastly, the chart identifies the **Corrective Action Regarding the Implementation of the Regulation**. This section may also include a reference to a student file that was used as evidence to support the noncompliance of the regulation, if applicable. This section informs the district of any practices or procedures which need to be corrected as well as trainings for staff to inform them of the corrections as a result of the findings of noncompliance. The required corrective action by the district and a timeline for the corrective action is also provided. Identified in this section will be a number of new student files that will be selected at each school to demonstrate compliance with a requirement. The NHDOE will verify compliance through a subsequent on-site review of the new files within a year from the date of the report.

Corrective Action regarding the Implementation of the Regulations: For student files W, AY, BA, & BC, there was no evidence that a group of qualified professionals and the parent of the child determined whether the child is a child with a disability. For student files W, AY, BA, & BC, there was no evidence that the IEP team also included a teacher certified in each area of suspected disability. For student files G & R, there was no evidence that the team drew upon, carefully considered and documented information from a variety of sources, including aptitude and achievement tests, parent input, and teacher recommendations, as well as information about the child's physical condition, social or cultural background, and adaptive behavior.

Provide training to appropriate staff to ensure that the composition of the IEP team to determine eligibility includes a group of qualified professionals and the parent of the child, teachers certified in each area of suspected disability. Training will need to also address ensuring that the IEP team to determine eligibility draws upon carefully considered and documented information from a variety of sources, including aptitude and achievement tests, parent input, and teacher recommendations, as well as information about the child's physical condition, social or cultural background, and adaptive behavior.

Provide a brief description of the trainings including the dates of the trainings and lists of staff in attendance to the NHDOE within 3 months from the date of this report.

The NHDOE will select 8 new student files (3 at HES, 2 at SMS, 3 at CRHS) for updated data demonstrating compliance with this requirement and will verify that the composition of the IEP teams for determination of eligibility includes a group of qualified professionals and the parent of the child, and teachers certified in each area of suspected disability through a subsequent onsite review.

The NHDOE will select 4 new files (2 at AES & 2 at GES) for updated data demonstrating compliance with this requirement and will verify that the IEP team, to determine eligibility, draws upon carefully considered and documented information from a variety of sources, including aptitude and achievement tests, parent input, and teacher recommendations, as well as information about the child's physical condition, social or cultural background, and adaptive behavior through a subsequent onsite review.

34.	34 CFR 300.324(a)(2)(ii) Ed 1109.03(h)	When a child demonstrates limited English proficiency, 0 out of 0 IEPs demonstrated evidence that the IEP Team considered the language needs of the child as those needs relate to the child's IEP. <i>(No child was demonstrated limited English proficiency from the files reviewed.)</i>
35.	34 CFR 300.324(a)(2)(iii) Ed 1109.03(h)	When a child is blind or visually impaired, 1 out of 2 IEPs demonstrated evidence that the IEP Team provided for instruction in Braille and the use of Braille unless the IEP Team determined, after an evaluation of the child's reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the child's future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille was not appropriate for the child.
36.	34 CFR 300.324(a)(2)(iv) Ed 1109.03(h)	29 out of 30 IEPs demonstrated evidence that the IEP Team considered the communication needs of the child.
37.	34 CFR 300.324(a)(2)(iv) Ed 1109.03(h)	When a child is deaf or hard of hearing, 1 out of 1 IEPs demonstrated evidence that the IEP Team considered the child's language and communication needs, opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the child's language and communication mode.
38.	34 CFR 300.324(a)(2)(v) Ed 1109.03(h)	27 out of 30 IEPs demonstrated evidence that the IEP Team considered whether the child needed assistive technology devices and services.

Corrective Action of Individual Instance of Noncompliance: For student file H, there was no evidence that when a child's behavior impedes the child's learning or that of others, the IEP team considered the use of positive behavioral interventions and supports, and other strategies, to address that behavior. For student file BE, there was no evidence

that when a child is blind or visually impaired, that the IEP Team provided for instruction in Braille and the use of Braille unless the IEP Team determined, after an evaluation of the child’s reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the child’s future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille was not appropriate for the child. For student file AE, there was no evidence that the IEP Team considered the communication needs of the child. For student files I, Z & AO, there was no evidence that the IEP Team considered whether the child needed assistive technology devices and services.

As soon as possible, but no later than 2 months of the date of this report, the district must amend student H’s IEPs to include considerations when a child’s behavior impedes the child’s learning or that of others, the IEP team considered the use of positive behavioral interventions and supports, and other strategies, to address that behavior; and amend student BE’s IEP to ensure that the IEP Team provided for instruction in Braille and the use of Braille unless the IEP Team determined, after an evaluation of the child’s reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the child’s future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille was not appropriate for the child; and amend student AE’s IEP to include considerations of the communication needs of the child; and amend students I, Z & AO’s IEPs to include considerations regarding whether the child needed assistive technology devices and services. The NHDOE will verify this through a subsequent on-site review.

Corrective Action regarding the Implementation of the Regulations: Provide training to appropriate staff to include considerations of special factors when developing IEPs. Provide a brief description of the trainings including the dates of the trainings and lists of staff in attendance to the NHDOE.

The NHDOE will select 12 new student files (2 at AES, 2 at DCS, 2 at HES, 2 at PES, 2 at GBS, 2 at CRHS) for updated data demonstrating compliance with this requirement and will verify the evidence that IEP teams considered the areas of special factors. Corrective Action of Individual Instance of Noncompliance: For student file V, there was no evidence of a statement of related services. For student file AX, there was no evidence of the anticipated frequency, location, and duration of those services and modifications described in the supports and services section of the IEP. For student files F, K, Q, Y, AT & BF, there was no written evidence documenting implementation of the IEP with regards to all special education services provided. For student files Y & BG, there was no written evidence documenting implementation of the IEP with regards to all related services provided. For student file AZ, there was no written evidence documenting implementation of the IEP with regards to supports provided for school personnel.

Within 2 months of the date of this report, the district must amend student V's IEP to include a statement of related services, and amend student AX's IEP to include the anticipated frequency, location, and duration of those services and modifications described in the supports and services section of the IEP. The NHDOE will verify this through a subsequent on-site review.

Within 2 months of the date of this report, the district must ensure that there is written evidence documenting implementation of the IEPs with regards to all special education services for students F, K, Q, Y, AT & BF, and ensure that there is written evidence documenting implementation of the IEPs with regard to all related services provided for students Y & BG; and ensure written evidence documenting implementation of the IEP with regards to all supports provided for school personnel implementing the IEP for student AZ. The NHDOE will verify this through a subsequent on-site review.

Corrective Action regarding the Implementation of the Regulations: Develop a procedure and provide training to appropriate staff to include a statement of related services, and that the anticipated frequency, location, and duration of those services and modifications described in the supports and services section of the IEP are included in IEPs. Provide a brief description of the trainings including the dates of the trainings and lists of staff in attendance to the NHDOE within 3 months from the date of this report.

Develop a procedure and provide training to appropriate staff for ensuring that there is written evidence documenting implementation of the IEP with regards to all special education and related services provided; and supports provided for school personnel implementing the IEP. Provide a brief description of the trainings including the dates of the trainings and lists of staff in attendance to the NHDOE within 3 months from the date of this report.

The NHDOE will select 4 student files (2 at GES, 2 at SMS) for updated data demonstrating compliance with ensuring the

IEPs to include a statement of related services and the anticipated frequency, location, and duration of those services and modifications described in the supports and services section of the IEP. The NHDOE will verify the evidence through a subsequent on-site review.

The NHDOE will select 12 student files (2 at AES, 2 at DCS, 2 at GES, 2 at HES, 2 at SMS, 2 at CRHS) for updated data demonstrating compliance with ensuring that there is written evidence documenting implementation of the IEPs with regards to all special education and related services provided, and any supports provided for school personnel implementing the IEP. The NHDOE will verify the evidence through a subsequent on-site review.
