

# Wednesday's Wisdom

June 2014

**BNPS Webinar training: SMART SNACKS and Competitive Foods Rule -  
A Basic Primer Webinar  
presented on June 12, 2014 from 1-3 PM**

## ***A note from our friends at NH Kids Count: New Hampshire Breakfast Challenge Information***

We are a quarter of the way through the NH School Breakfast Challenge! Congratulations to the 204 schools that have increased their breakfast participation since October 2013, especially our Top Achievers for the first quarter. For the list of Top Achievers and more information on the first quarter of the Challenge, please visit <http://www.NHSchoolBreakfast.org>.

## ***And, a note from our friends at the Dairy Council***

**Going to SNA/ANC this July? Looking for  
recipes that meet the new USDA  
regulations? Check this out....**

Happy June Dairy Month!

Beginning in July, National Dairy Council will be rolling out  
new recipes that offer menu solutions to meet new school meal  
regulations, and also offer excitement to make school  
breakfast a whole new experience that can't be missed!

Part of the Innovation Center's Breakfast Lab project, these  
on-trend quick-scratch breakfast recipes have been tested and  
approved by kids and school nutrition professionals. Each  
recipe includes a serving of whole grains in addition to  
reduced-fat, low-fat or fat-free dairy. Many also incorporate 1/2  
cup of fruit. The recipes will be featured through a Culinary  
Demo on June 14<sup>th</sup> at the School Nutrition Association Annual  
National Conference, in Boston, July 14-16. (Note: you will  
also find the recipes on the Dairy Council website when  
posted).

Thank you to everyone who participated in  
making the first jointly hosted Farm to  
School/Preschool Conference a success! We  
are busy preparing for the Farm to  
School/Preschool event for next year.

Stay Tuned!

### ***Save the Date!***

You are cordially invited to the Third Annual Tri-State  
Conference

**May 1, 2015  
at Sunday River, Maine**  
More information to come!
