Home School students in CATE….

- In order for a home school student to be entered in CATE, that student must first be entered into i4see.

- The home school student’s district of responsibility assigns the SASID.

- The home school student’s district of responsibility must identify a valid sending school.

- If students in the district of responsibility normally attend the CTE receiving center as their normal school of attendance, no tuition or transportation reimbursement will be provided.

- If students in the district of responsibility maintain their own high school and send the home school student to the CTE receiving center for CTE programming, this student will be listed on the AV-1 form (and AV-2, if applicable) in the same way as all other students from that district.
