

# WHAT IS YOUR VISION FOR NH SCHOOLS?

The Every Student Succeeds Act (ESSA), the replacement for the law commonly known as No Child Left Behind, provides the state and all NH schools with a chance to sharpen our collective vision for education and improve, innovate and strengthen our public schools.

The New Hampshire Department of Education (NHDOE) wants all of our stakeholders to join in this critical discussion by sharing ideas on what is most important to improve student learning and how the state can best support schools to serve the needs of all students.

**Please join us at this upcoming public forum or complete our online survey to tell us your vision for the New Hampshire Public Schools.**

## JOIN US ON OUR REGIONAL LISTENING TOUR

**November 22 (7-8:30 pm)  
Hillside Middle School  
Manchester (112 Reservoir Ave.)**

**We're looking for your views.** What characteristics (academic, climate/culture, special services, etc.) are most important to you to support and grow student learning?

If you moved into a new community, what would you want to know about the quality of the schools and the level of student learning and success? Would you want to be able to see how the schools are doing compared to other schools in the state?

Overall, what do you expect from New Hampshire's educational system? How would you like for the NH Department of Education to support that expectation?
