STATE APPROVING AGENCY

The State Approving Agency originated when President Franklin D. Roosevelt signed the G. I. Bill of Rights into law in 1944. Congress recognized that each state has the right and responsibility for the education and training of its residents. The State Approving Agency together with the federal government manages veterans’ education and job training programs.

The State Approving Agency’s (SAA) role is to approve and supervise the apprenticeship and on-the-job training programs for eligible veterans, dependents, National Guard members, and Reservists. The New Hampshire SAA operates within the Division of Higher Education.

The SAA must specifically approve each training program in which a veteran or eligible person wishes to use G. I. Bill benefits.

The New Hampshire SAA currently has approved a number of training establishments and on-the-job training or apprenticeship programs. Your business may be added to this growing list.

BENEFITS TO EMPLOYERS

Veterans who have worked in technically oriented military occupations are better prepared for civilian technical training.

Veterans have demonstrated the aptitude to be trained in a structured environment.

Veterans have developed a work ethic that enables them to report for work on time and in the proper frame of mind.

Veterans tend to be more mature, self-confident, and drug-free employees.

Veterans who receive G. I. Bill assistance will work toward a training objective and make satisfactory progress to receive continued benefits.

Veterans possess higher education and training achievements.

Veterans receive the same prevailing wage as other employees in the same position. Scheduled pay increases develop employee loyalty.

Veterans possess work traits, such as adapting to physical demands, following safety guidelines, working under pressure, and setting priorities.

Employer record keeping is minimal.

APPRENTICESHIP TRAINING

- A skilled occupation learned through a structured, systematic program of supervised on-the-job training to learn necessary manual, mechanical, or technical skills.
- May include theoretical related instruction.
- Normally two to five years in length.
- Occupation clearly identified and commonly recognized throughout an industry.

ON-THE JOB TRAINING

- A skilled occupation is learned under the supervision of a skilled worker in a practical, hands-on way.
- Six months to two years in length.
HOW TO BEGIN

- Determine the occupations within your company that may be trained by apprenticeship or on-the-job training programs.
- Determine whether veterans, eligible dependents, National Guardsmen, or Reservists are currently employed in any of those positions.
- Contact the New Hampshire State Approving Agency (SAA) to determine if those programs can be approved.
- Schedule a visit from a SAA specialist to complete the required forms, and enroll the individual(s).

*Time Limit: As a general rule, veterans have ten (10) years after their separation or eligibility to use their benefits.
