Contact Information

General Information

If you have any questions regarding the New England Common Assessment Program (NECAP) or procedures for administering the NECAP tests, contact the Measured Progress NECAP Service Center at 1-877-632-7774. The service center is open Monday through Friday between the hours of 8:00 a.m. and 4:00 p.m.

If you need to order additional NECAP test materials, go to http://iservices.measuredprogress.org and follow the on-screen instructions. (See page 14 of this manual for more information.)

NOTE: Additional copies of this manual and the Test Administrator Manuals may be downloaded from your department of education’s website or photocopied as needed.

NECAP Policy Information

If you have any questions or suggestions regarding NECAP policy, please contact:

Susan Smith, MEA/NECAP Coordinator
Maine Department of Education
23 State House Station, Augusta, ME 04333
207-624-6775
www.maine.gov/education/

Tim Kurtz, Director of Assessment
New Hampshire Department of Education
101 Pleasant Street, Concord, NH 03301-3860
603-271-3846
www.ed.state.nh.us

Dr. Kevon Tucker-Seeley, Office of Instruction, Assessment, and Accountability
Rhode Island Department of Elementary and Secondary Education
255 Westminster Street, Providence, RI 02903
401-222-8494
www.ride.ri.gov

Michael Hock, Director of Assessment
Vermont Department of Education
120 State Street, Montpelier, VT 05620-2501
802-828-3115
www.state.vt.us/educ/

TEST SECURITY
All test items and responses to those items in the New England Common Assessment Program are secure and may not be copied or duplicated in any way, or retained in the school after testing is completed.
**Important Dates**

All NECAP test materials delivered by this date............................................... September 21, 2009
Test administration window................................................................................ October 1-22, 2009
Last day to order additional labels ................................................................. October 2, 2009
All orders of additional labels shipped to schools .............................................. October 9, 2009
Last day for ME, NH, and RI schools to request special considerations .......... October 22, 2009
Complete online *Principal Certification of Proper Test Administration* by October 22, 2009
Maine, New Hampshire, and Rhode Island UPS pickup for all test materials ...... October 23, 2009
Vermont UPS pickup for all test materials (due to official school closings on October 22 and 23) October 26, 2009

**New This Year**

Maine joins NECAP
In October 2009, Maine students at grades 3 through 8 will be administered the NECAP test along with students from New Hampshire, Rhode Island, and Vermont.

Revised *Table of Standard Test Accommodations* (see Appendix F, pages 34-37)
The state departments of education worked together to revise the NECAP *Table of Standard Test Accommodations* and the *NECAP Accommodations Guide*. A few new accommodations have been added, several have been clarified, and a few that were rarely used have been removed. The accommodations codes are different from past years. Please study the new table carefully and adjust any accommodations plans for students to match the new accommodations. Refer to the *NECAP Accommodations Guide* (available on your state’s department of education website) for additional details and for a crosswalk to old accommodations codes.

Grade 5 and 8 Writing Pilot Test (see page 15 for more details)
This year, writing tests at grades 5 and 8 are pilot tests. Each school with grade 5 or 8 will receive one test form of the writing pilot. Session 1 consists of 10 multiple-choice questions and 3 short writing response questions. Session 2 consists of one extended writing response. The test design has been altered slightly; it will no longer include planning boxes for the extended writing response. Schools should schedule 90 minutes for each session. The results of the pilot test will be used to construct operational test forms. Therefore, student scores in writing will not be reported to schools for this year only.

Online *Test Administrator Questionnaire* (see a *Test Administrator Manual* for details)
The *Test Administrator Questionnaire* will be completed online by test administrators. Administrators will need to log on to [http://iservices.measuredprogress.org](http://iservices.measuredprogress.org) to access the questionnaire. Detailed instructions and questionnaire questions are provided in each grade-level *Test Administrator Manual*. Since this questionnaire is now online, paper questionnaires and scannable answer sheets will not be included in your shipment of test materials this year.

Test Coordinator and Test Administrator training CDs
Your test shipment includes two presentations on CD. The Principal/Test Coordinator presentation is geared toward an experienced coordinator and highlights changes to this year’s administration. This manual should still be read thoroughly for detailed information. The Test Administrator presentation should be shared with administrators and used at faculty training sessions.
Returning hazardous materials (see page 22 for details)
This year, test materials that have been contaminated with hazardous biological matter, such as vomit or blood, should no longer be returned to Measured Progress. If you have contaminated materials, contact the NECAP Service Center for guidance.

Optional School Test Materials Tracking Form (see Appendix G, page 38)
The principal/test coordinator is ultimately responsible for every test booklet and maintaining test security. A sample tracking sheet has been created as one way for schools to track test materials as they move from location to location during testing. Use of this form is optional in ME, NH, and VT and it may be adjusted to fit each school’s needs. RI schools must use the tracking sheets included in their RI Test Security packet.

Optional NECAP Student Enrollment Update Record 2009 (see Appendix H, page 39)
This optional form is provided for schools to record students who do not participate in NECAP and the reason why. Tracking this information during testing will be a useful reminder when reports are issued in January.
Checklist for Principals and Test Coordinators

Please note: this checklist is provided as a summary only. For detailed information on each of the tasks below, refer to the page number in parentheses. It is essential that you thoroughly read this entire manual in order to ensure the proper administration and security of all NECAP tests.

Before testing:

☐ Determine the testing schedule for your school, including students who require accommodations and make-up testing (page 5)
☐ Receive and inventory test materials (page 10)
☐ Order additional testing materials, as needed (page 14)
☐ Order student ID labels for students for whom a label was not provided (page 14)
☐ Prepare test booklets: count booklets for each test administrator and affix student ID labels (page 15)
☐ Conduct a NECAP test administration training session with all test administrators (page 17)
☐ Communicate your test security plan to all administrators (pages 2 & 12)

During testing:

☐ Maintain security of test materials between testing sessions (page 12)
☐ Observe test administration in your school(s) and be available to answer questions as necessary (page 20)
☐ Manage logistics and testing of students who move in or out of your school during test administration (page 20)

After testing:

☐ Collect and inventory all test materials from test administrators (page 21)
☐ Check all used answer booklets for the following:
  ☐ no extra papers are attached to or inserted in the booklets (page 21)
  ☐ the cover has a student ID label or the appropriate information bubbled in (page 22)
  ☐ page 2 is completed, as needed (page 22)
☐ Insert all used answer booklets into the grade-appropriate envelope(s) labeled “For Return of Used Answer Documents Only” (page 24)
☐ Insert any used large print, Braille, and/or materials requiring special handling into the envelopes provided for their return (page 21)
☐ Complete the online Principal’s Certification of Proper Test Administration for each grade tested (page 23)
☐ Complete the online Principal/Test Coordinator Questionnaire (page 23)
☐ Pack all test materials in shipping boxes for return to Measured Progress. All secure materials (including scratch paper) must be returned to Measured Progress. Affix one UPS return service (RS) label to each box (page 25)

The New England Common Assessment Program

Background

The New England Common Assessment Program (NECAP) is a collaboration among Maine, New Hampshire, Rhode Island, and Vermont to build a set of assessments to meet the requirements of the No Child Left Behind (NCLB) Act. The states decided to work together for three important reasons:

- Working together brings a team of assessment and content specialists together with experience and expertise greater than any individual state.
- Working together provides the capacity necessary for the four states to develop quality, customized assessments consistent with the overall goal of improving education.
- Working together allows the sharing of costs in the development of a customized assessment program of a quality that would not be feasible for any individual state.

Structure and Format of the Test

The NECAP is a comprehensive set of tests that cover a broad range of learning expectations in reading and mathematics administered at grades 3 through 8 and 11 and writing at grades 5, 8, and 11. A complete description of the learning expectations for grades 3 through 8 can be found in the New England Common Assessment Program Grade-Level Expectations (NECAP GLEs). The high school learning expectations can be found in the New England Common Assessment Program Grade-Span Expectations (NECAP GSEs). These documents were developed and adopted collaboratively by the departments of education in Maine, New Hampshire, Rhode Island, and Vermont. The NECAP GLEs and GSEs are posted on the websites of the individual state departments of education.

NECAP tests include the following types of items:

- multiple-choice items, which require students to select the correct answer from four possible responses
- short-answer items, which require students to provide a solution to a problem
- constructed-response items, which require students to write a brief (up to a half page) response or show the solution to a problem
- writing prompts, which require students to demonstrate their ability to communicate in writing through an extended response – these prompts are both stand alone and text based
Test Coordinator’s Responsibilities

Test coordinators are vital to the success of the NECAP. For this reason, the instructions given in this manual and in each grade-specific Test Administrator Manual must be followed closely by each principal/test coordinator and test administrator.

The test coordinator’s primary responsibilities include:

- serving as the school’s contact person for Measured Progress
- coordinating all test-related activities
- preparing test administrators to administer the NECAP tests according to the directions in the Test Administrator Manual
- overseeing the inventory, distribution, collection, and return of all test materials
- ensuring the security of all test materials and compliance with test administration procedures

Test Security (Before, During, and After Testing)

The test coordinator is responsible for ensuring the security of materials for the NECAP tests. The test coordinator must notify test administrators and anyone else who has access to the test materials that all test booklets and answer booklets are secure and must not be released, copied, or duplicated before or during testing or retained in the school in any way after testing is completed. To protect the security of the test, all test administrators must carefully follow the instructions in the manuals for administering the test and handling materials. Keep the test booklets secure at all times. Any loss of test materials should be reported immediately to Measured Progress, to your superintendent, and to your state department of education.

Failure to comply with the administration and security requirements described in this manual may result in one or more of the following penalties:

- delay in reporting of student, school, or district results,
- invalidation of student, school, or district results, and/or
- investigation by your department of education for possible certification/licensure action.

Using secure test material to prepare students in any way for this test administration is a violation of test security and testing procedure.

Breaches in Test Security

Any concern about breaches in test security or noncompliance with test administration procedures must be reported immediately to the test coordinator and/or principal. The test coordinator and/or principal is responsible for immediately reporting the concern to the district superintendent and state director of assessment at the department of education. (See page i of this manual for contact information.)
Before Testing

Preparation for Test Administration

Manuals
The Principal/Test Coordinator Manual and each grade-specific Test Administrator Manual outline all of the steps to be followed before, during, and after test administration. Understanding of and compliance with each of these steps is vital for a successful NECAP administration. Please read this manual and a Test Administrator Manual to become familiar with the test administration procedures. Make note of any special arrangements that will be necessary for your school.

Student Participation and Accommodations

Who Should Be Tested?
NCLB makes clear in its title that schools are accountable for all students. The four NECAP states are equally committed to supporting the inclusion of all students in assessment by using elements of universal design in the NECAP tests and by developing alternate assessments for the small percentage of students who cannot participate in the NECAP tests.

All students enrolled in the school as of October 1, 2009 are required to participate in the NECAP with the following exceptions:

- Students who completed the alternate assessment for the 2008–2009 school year.
- Students who are new to the U.S. after October 1, 2008 and are LEP and take the ACCESS test of English language proficiency as scheduled in their states are not required to take the NECAP reading and writing tests. However, these students **must take the NECAP mathematics test**.
- Students who have state-approved special considerations. Each state department of education has a process for documenting and approving circumstances that make it impossible or not advisable for a student to participate in state testing. The following table outlines the procedure for each state.

<table>
<thead>
<tr>
<th>State</th>
<th>Procedure for approval for special considerations</th>
<th>Contact</th>
</tr>
</thead>
</table>
| ME    | o ME state-approved special considerations are for medical reasons, personal crisis, family emergency, and court order  
      o Each student must be enrolled in MEDMS  
      o A Request for Special Consideration form, signed by your principal, must be submitted to MDOE for approval. This form is available on the MDOE website.  
      o Requests are due no later than 10/22/09  
      o Schools will receive written notification of approval or denial. | Susan Smith  
      207-624-6775 |
| NH    | o Each student MUST be registered with the state  
      o A Request for Medical Exemption from NH Statewide Assessment form must be submitted (available on the NH DOE website)  
      o You must receive written acknowledgement from the NH DOE  
      o Requests are due no later than 10/22/09 | Tim Kurtz  
      603-271-3846 |
| RI    | o RI state-approved special considerations are for medical reasons, personal crisis, family emergency, and court order  
      o A written request, signed by your superintendent, must be submitted to RIDE to obtain approval  
      o Requests are due no later than 10/22/09 | Dr. Kevon Tucker-Seeley  
      401-222-8494 |
| VT    | o VT state-approved special considerations are for medical reasons, personal crisis, family emergency, and court order  
      o Contacting the department for approval is not necessary; the Participation Verification form mailed to schools after assessment will be the basis for approval | Mary Ann Minardo  
      802-828-5410 |
Determining How Students Will Participate Using Accommodations

The NECAP states have agreed upon a common set of allowable accommodations. Accommodations are available to all students based on individual need regardless of disability status. The Table of Standard Test Accommodations was modified this year. Use the updated table when planning accommodations for students. It is available as Appendix F of this manual and is also included in each Test Administrator Manual.

Decisions regarding accommodations must be made by the student’s educational team on an individual basis. Accommodations must be consistent with those used during the student’s regular classroom instruction, including test taking. Refer to the NECAP Accommodations Guide, available on each state’s department of education website, for detailed information on planning and implementing accommodations and for a crosswalk to old accommodation codes.

Other Accommodations

If the decision of the student’s educational team requires an accommodation not listed in the Table of Standard Test Accommodations, you must contact your state department of education in advance of testing for specific instructions on coding the “Other (O)” and/or “Modifications (M)” sections. (Refer to the table below for contact information.) Any accommodation(s) used must be consistent with those used during the student’s regular classroom instruction.

Use of an accommodation in the “Modifications (M)” section will invalidate the session(s) in which it was used and no credit will be given. It is important to take this into consideration when choosing whether or not to allow a modification. Additionally, the use of an accommodation in the “Other (O)” section without state approval will invalidate the session(s) in which it was used.

Document Accommodations

All accommodations used during any test session must be recorded by authorized school staff on page 2 of the answer booklet in the “Accommodations Used” section. A sample page 2 of an answer booklet is in Appendix B of this manual.

If you have any further questions regarding the use of standard test accommodations or approval for other test accommodations and/or modifications, please contact the DOE personnel from your state listed below:

</tbody>
</table>
Scheduling Test Sessions

The testing window is October 1-22, 2009. All testing, including accommodations and make-up testing, must be completed by October 22, 2009. Each school is responsible for creating its own testing schedule but should consider religious holidays and/or local events that may impact students’ ability to participate. Schools may want to schedule around these dates, but also should plan on make-up test sessions at the end of the assessment window for students who miss testing for any reason including absences for religious holidays. Make-up testing may begin immediately following the scheduled administration of a test session. No student should be scheduled for a make-up session prior to the scheduled administration of that test session.

Ideally, each test session should be administered when and where students are most likely to do their best. Test activities for each grade include time at the beginning of testing for general test instructions and time at the end for completing the Student Questionnaire. (The Student Questionnaire is optional in Vermont.)

Except for make-up sessions, the test sessions must be taken in the order presented in the test booklet. Refer to the tables on the following pages for the order in which tests must be scheduled and administered.

This table describes the requirements of each state for simultaneously administering test sessions:

<table>
<thead>
<tr>
<th>State</th>
<th>Requirement</th>
</tr>
</thead>
<tbody>
<tr>
<td>ME, NH, and VT</td>
<td>All students at a particular grade level within a school must be scheduled to take the same test session simultaneously.</td>
</tr>
<tr>
<td>RI</td>
<td>All students at a particular grade level within a district must be scheduled to take the same test session simultaneously.</td>
</tr>
</tbody>
</table>

Be sure that the test sessions do not conflict with regularly scheduled daily activities such as recess, snack breaks, and lunch; sufficient time should be allowed for continuous administration of each test session. Refer to the tables on the following pages for the testing time information for each grade level.

At grades 3 through 8, test sessions are designed to be completed in approximately 45 minutes. However, recognizing that students work at different rates, NECAP tests are not strictly timed. As long as they are working productively, students are allowed up to an additional 45 minutes per session.

At grade 11, test sessions are designed to be completed in approximately 60 minutes. However, as long as students are working productively, they are allowed up to an additional 30 minutes per session.

Therefore, for all grades, schedule 90 minutes of uninterrupted time for administering each test session. Students who will need beyond 90 minutes must have an extended time accommodation determined prior to testing.

If students complete a test session early, those students may go back and check work in that session of the test only or close their test booklets and sit quietly. Students may not work on any other session of the test. Since some students will finish early, it is important for them to be quietly occupied so they will not disturb those students who require more time.
ALL test sessions must be scheduled in the order below, and all students must be tested simultaneously within a grade. The only exceptions to these rules are for make-up testing and students with accommodations.

### Testing Sessions and Time: Grades 3 and 4

Test Materials

Inventory Test Materials

- Check that all materials for each grade have been received by September 21, 2009
- Count the number of materials received and compare with the included Material Summary Form; report any discrepancies by calling the NECAP Service Center
- Locate the green instructions sheet for the Principal’s Certification of Proper Test Administration, shipped with the materials for the lowest tested grade in your building, and keep it in a safe place until completion of testing
- Save the boxes that the materials were shipped in and the included UPS return service labels for returning materials to Measured Progress when testing is complete

Please read below for more details

Test materials will be delivered to schools via UPS (United Parcel Service). There will be a separate shipment for each grade tested and the shipments may not arrive on the same day. Please alert your school staff to notify you immediately upon receipt of the test materials. Testing materials can be easily identified by the Measured Progress information on the boxes. If you have not received all test materials by September 21, 2009, please call the NECAP Service Center at 1-877-632-7774.

Inventory all test materials immediately upon receipt. The Material Summary Form included in the box labeled “Administration Materials Enclosed” provides the total number of materials shipped to your school for each grade. (A sample Material Summary Form is shown in Appendix A.) Using the Material Summary Form, mark the quantity of each item shipped in the “Qty Received” column. This is your record of what was received. It is important that all materials are counted prior to testing. Any discrepancy between what is on your Material Summary Form and the actual count must be reported immediately to the NECAP Service Center. A separate form, titled Packing Slip *Secured Material*, provides a detailed list of the contents of each box and lists the bar code numbers that appear on the test booklets only; you are not required to record or track these barcodes.

Quantities of Test Booklets and Answer Booklets

The quantity of test materials that Measured Progress sends each school is based on projected enrollment information provided by your state department of education. An average of 10% has been added to each school’s enrollment to account for new students who may have enrolled after the numbers were submitted, and to provide samples for test administrators.

The number of test booklets and answer booklets contained in each shrink-wrapped pack is indicated by a sticker on the front of the pack. Since every test booklet shipped to a school must be returned, verify the quantity of booklets contained in each shrink-wrapped pack and immediately report any discrepancies to Measured Progress.

Quantities of Other Materials

One Principal/Test Coordinator Manual will be sent in the box of materials for the lowest grade tested in the school. Each school will also receive a set of instructions with a password for completing the online Principal’s Certification of Proper Test Administration form and the online Principal/Test Coordinator Questionnaire. The quantity of Test Administrator Manuals is based on a ratio of about one for every 15 students enrolled in the school at each grade level. Additional manuals can be photocopied or downloaded from each state’s department of education website. The number of mathematics reference sheets, mathematics tool kits, rulers, and protractors will be equal to the number of test booklets and answer booklets shipped.
# Packaging of Test Materials

The sequence of how test materials are packed in boxes for each grade in the school is listed below and on the following pages.

<table>
<thead>
<tr>
<th>Administrative materials box</th>
<th>Notes</th>
</tr>
</thead>

</tr>
</tbody>
</table>

Save the original shipping boxes for the return of test materials. Each box contains a preprinted bar code label identifying test materials for your school. **Do not remove, destroy, or deface this label:** the information on the label will expedite tracking of returned material.

One UPS return service label was sent for each box. Save all return service labels in a secure place until preparing to return materials.
Storing and Access to Test Materials
Designate a locked and secure location for the storage of all test materials when they are not being used by students. Under no circumstances should anyone have access to test materials other than individuals designated to be directly involved with test distribution or administration and students enrolled in grades 3 through 8 and 11. The test coordinator is responsible for protecting test materials from being viewed by unauthorized individuals from the time the materials are received at the school until the materials are picked up by UPS.

Test items and student responses may be viewed only by test administrators for the purpose of test administration and only to the extent necessary for proper test administration. Under no circumstances should individuals not involved in test administration be given access to NECAP test materials.

Appendix G of this manual is a sample School Test Materials Tracking form. A tracking form can be a useful tool for a test coordinator handling many grades of test materials. Using a tracking form is optional in ME, NH, and VT; you may modify the sample form or create your own. RI schools must use the tracking sheets included in the RI Test Security packet.

Duplication of test booklets and answer booklets is strictly forbidden, including, but not limited to, audiotaping, videotaping, photocopying, photographing, and handwritten copying. No test materials of any kind may be retained, discarded, recycled, removed, or destroyed. Any loss of test materials must be reported immediately to Measured Progress, your superintendent, and your state department of education.

Student ID Labels

Student ID labels are used to minimize effort for schools during testing and ensure the accuracy of student demographic information. Student ID labels for students in each grade will come packed in a white envelope in the administrative forms box for that grade. Schools will receive one label for students in grades 3 and 4, and two identical labels for students in grades 5 through 8 and 11.

Student ID labels were based on end of 2008–2009 school year enrollment projections; therefore, you may be missing labels for some students who are enrolled in your school, receive labels containing incorrect student information, or receive labels for students not enrolled in your school. It is critical to attend to each situation in the following way:

Missing labels for students enrolled in your school: You may order additional labels for students enrolled in your school who did not receive a label by following the procedure on the following page. Additional labels must be ordered by October 2, 2009.

Student ID labels containing incorrect information: The student name and school name must be correct for the label to be used. If that information is incorrect, do not use the label. Please throw it away and follow the procedure on the following page for ordering additional labels. However, if the grade or birth date is incorrect, you may still use the label.

Student ID labels for students NOT in your school: Labels are created for specific schools and are not transferable to other schools. Throw away any labels received for students not enrolled in your school. Do not forward labels to other schools. Do not affix these labels to test booklets or answer booklets.
Ordering Additional Materials

Ordering Additional Student ID Labels
Schools have the opportunity to order additional labels for students who did not receive labels in the original shipment or to replace labels with incorrect information. Orders for additional labels must be received by October 2, 2009. After October 2, you must follow the procedure described below for “Students who never receive a student ID label”. All orders for additional labels will be shipped **one time**, on October 9, 2009.

<table>
<thead>
<tr>
<th>State</th>
<th>Procedure for ordering additional student ID labels</th>
</tr>
</thead>
<tbody>
<tr>
<td>ME</td>
<td>Labels are generated through MEDMS/Infinite Campus State Edition. Review the NECAP Labels Roster under ME State Reporting. If students are missing, check that they have valid enrollments in MEDMS/Infinite Campus. Contact the MEDMS helpdesk if you need assistance: 207-624-6896 or <a href="mailto:medms.helpdesk@maine.gov">medms.helpdesk@maine.gov</a></td>
</tr>
<tr>
<td>NH</td>
<td>Call your district i4see contact to submit all requests for additional labels.</td>
</tr>
<tr>
<td>RI</td>
<td>Go to <a href="http://iservices.measuredprogress.org">http://iservices.measuredprogress.org</a>. Detailed instructions, including your password, were sent in the envelope containing your original labels. You will need a student name, birth date, gender, and race/ethnicity for each label ordered.</td>
</tr>
<tr>
<td>VT</td>
<td>Go to <a href="http://iservices.measuredprogress.org">http://iservices.measuredprogress.org</a>. Detailed instructions, including your password, were sent in the envelope containing your original labels. You will need a student name, birth date, and gender for each label ordered.</td>
</tr>
</tbody>
</table>

**Students who never receive a student ID label**: If you are unable to obtain a label for a student, you must complete the following student information on the front cover of the answer booklet:

<table>
<thead>
<tr>
<th>State</th>
<th>Information to complete on the answer booklet (only for students without a label)</th>
</tr>
</thead>
<tbody>
<tr>
<td>ME &amp; NH</td>
<td>Student name, state assigned student ID, and birth date</td>
</tr>
<tr>
<td>RI &amp; VT</td>
<td>Student name and birth date</td>
</tr>
</tbody>
</table>

Ordering Additional Testing Materials
To order additional materials other than labels, please follow the process listed below.

- Locate your “MP ship code” in the top left row on your *Material Summary Form*; you will need this to access your school’s account
- Go to [http://iservices.measuredprogress.org](http://iservices.measuredprogress.org)
- Select “New England Common Assessment Program” from the drop-down list and click “Enter”
- Select “Order Additional Materials” from the left column and follow the online instructions
- Order before 2 p.m. for materials to ship on the same day.
- Contact the NECAP Service Center (1-877-632-7774) if you have problems placing your order
Prior to Test Administration

Preparing Test and Answer Booklets for Testing

☐ Count out enough booklets for each test administrator and the group of students to whom they will administer the test
☐ Affix student ID labels to the appropriate booklets – students in grades 3 and 4 receive one label for the integrated booklet, and students in grades 5 through 8 and 11 receive two labels for a test booklet and answer booklet
☐ Braille booklets, large-print booklets, and writing test booklets do not require a label
☐ For students who do not have a label, and who will not be receiving a label, please complete the appropriate student information sections on the front cover (see page 14 for details)

Please read below for more details

Test booklets and answer booklets are shrink-wrapped together in packs of 15, 10, 5, and as singles. Shrink-wrapped packs may be split to accommodate the number of students in any one testing group within a grade level at the school. Each pack contains a mix of test forms — do not reorder the test forms when distributing them to test administrators.

Students in grades 3 and 4 will receive an integrated test booklet, which means the test questions and response spaces are in one booklet. Students in grades 5 through 8 and 11 will receive a separate test booklet and answer booklet. Students in grades 5 and 8 will also receive a separate writing test booklet.

IMPORTANT: Do not separate the answer booklets from the test booklets as they are paired by test form. In the event that the documents do become separated, you will need to match the form number on the front cover of the test booklets with the bracketed portion of the number printed on the bottom right corner of the answer booklets. In the sample below, the brackets indicate form 4.

1 6 0 4 2 3 1 3 4 8

This year, the writing test at grades 5 and 8 only is a pilot test. Each school will receive one form of the test; writing test forms will be identified by a letter, A-H. Each student should use his/her answer booklet from the reading and mathematics portion of the NECAP to respond to the writing test sessions. The form number of the answer booklet will not match the form letter of the writing book. Measured Progress will match answer booklets to writing test booklets prior to scoring. The results of the pilot test will be used to construct operational test forms. Therefore, student scores in writing will not be reported to schools for this year only.

A variety of barcodes also appear on the test booklets and answer booklets. These are used by Measured Progress to assist in tracking and accounting for the return of the booklets. The serial numbers on the test booklets will not match the serial numbers on the answer booklets. You are not responsible for checking these numbers.
Affixing student ID labels:

- Affix one student ID label to the answer booklet in the space provided in the lower right corner of the front cover. In grades 5 through 8 and 11, you will have a second label for each student. Affix that label to the front cover of the corresponding test booklet in the space provided.
- No label is necessary for the writing test booklet.
- No label is necessary for the large-print test form or Braille test form. Affix student ID labels to the regular test booklet and regular answer booklet included in the Braille or large-print kit.
- For students enrolled in your school without student ID labels, write the student name, school name, and district name on the lines provided in the lower right corner of the front cover of the answer booklet. In grades 5 through 8 and 11, also write the student name and school name on the cover of the test booklet. If you ordered additional labels, affix them in the appropriate spaces on each student’s booklets when they arrive. If no student ID label is anticipated, you must bubble the student information on the answer booklet. (See page 14 for details.)
- Remind test administrators that all students, with or without a student ID label, should write their name on the line provided in the upper left corner of the front cover of the answer booklet.

Optional Reports

- Choose factors or characteristics for which the school or district would like to collect data
- Determine the coding method that will be used to represent a specific factor or characteristic
- Record the key and save it until results are released (Measured Progress will not be able to tell you what factors or characteristics have been assigned to each row and bubble)
- Ensure that the “Optional Reports” box is correctly completed on page 2 of each student’s answer booklet

Please read below for more details

This field enables districts or schools to indicate groupings of students that can be used for analysis of results at the local level. Groupings may be based on any factor or characteristic of interest to the school such as class, teacher, feeder school, instructional program, etc. The six rows (A, B, C, D, E, and F) may be used to indicate up to six factors of interest per student. Each student’s booklet can have no more than one circle bubbled per row.

For example, row A could represent homeroom teachers. Each number in the row would correspond to one teacher. On each student’s booklet, bubble the circle that corresponds to that student’s teacher. Row B could represent a specific support program. On each student’s booklet, bubble the circle that corresponds to the support program in which the student participates. Schools or districts can develop their own coding system or choose not to use this field. Be sure to keep a record of the key used so when student data is available you know what each code represents.

If the “Optional Reports” field is used, any completed circles on the grid will be included in the student-level data file of NECAP results. This information is available at the district level when NECAP reports are complete. Contact your district office to obtain the information coded for your students.
Designating Test Administrators

Designate enough test administrators to ensure that

- each test session can be administered simultaneously to all students being tested at a grade level,
- students are tested in surroundings that provide them with the opportunity to do their best work,
- students who require accommodations will be supervised by trained test administrators (see NECAP Accommodations Guide), and
- make-up sessions will be supervised by trained test administrators.

Test administrators should be aware that their main responsibilities are to give clear directions to students, to monitor students throughout test administration, to see that directions are followed, to maintain test security, and to encourage students to take the task seriously.

Preparing Test Administrators

To support the test administrators in their role, schedule a meeting with them prior to test administration to review their responsibilities. Distribute a copy of the Test Administrator Manual to each test administrator before this meeting and tell them they must read the manual thoroughly prior to the meeting. Please duplicate the manual if additional copies are required or visit the state department of education website to download additional copies. (See page i of this manual for website addresses.) Utilize the Test Administrator presentation on CD provided with your test materials. This CD may be copied and distributed to administrators. During the meeting with test administrators, the test coordinator should

- assign each test administrator a specific group of students for testing, including students who need accommodations,
- explain the testing schedule and how it will be implemented for your school,
- discuss your school’s NECAP test security procedures, including test environment and approved testing materials,
- explain your school’s plan for inventorying, distributing, collecting, and storing secure test materials,
- notify them of your school’s procedures for make-up testing,
- explain the purpose for the optional reports field and the school’s coding method (if applicable),
- discuss additional materials needed during test administration: extra #2 pencils, scratch paper, calculators, and approved mathematics materials,
- explain that prior to testing at grades 3, 4, and 5 the mathematics tool kit pieces must be punched out and placed in the white envelopes provided,
- encourage test administrators to complete the online Test Administrator Questionnaire, and
- answer questions regarding test administration and security procedures.

Important reminders for test administrators:

Test administrators may not comment on students’ work or help them in any way, except during the general instructions, Student Questionnaire, or as specified in the Test Administrator Manual. Using the current year’s test materials to familiarize students with test items is a violation of test security and testing procedures.

All test items and all student responses in the NECAP are secure and may not be released, copied or duplicated in any way, or kept at the school once testing is completed.
Preparing Students and Families

- Notify parents/guardians and students of the purpose for and use of the test and testing schedule for your school, discourage absences during test administration, and explain the need for make-up testing.
- Explain the importance of test security.
- Notify students that they may bring a book to read in case they finish working before the end of the session.

As principal/test coordinator, you are ultimately responsible for ensuring that students are properly instructed in the use of test materials and are given the opportunity to do their best. You or your designee must ensure that:

1. students have been informed about the importance of the NECAP before testing begins; that their test results will be included in school records; a copy of the test results will be provided to their parent(s) or guardian(s); and test results, including sample student responses, will be used by teachers to help improve academic performance.

2. students are informed about test security and ethical considerations, do not participate in any form of cheating; only provide answers that are strictly their own; do not consult notes, textbooks, or other teaching materials; share test questions with other students; or consult other students, staff, or anyone else accessible to them during test administration.

3. each student receives a set of test materials for the appropriate grade, uses only that assigned set of test materials, and handles and completes the materials properly.

4. students are informed that they will have a specific amount of time to complete each session, with a specified amount of additional time, as specified in this manual.

5. students are informed that they will be required to make up any test session missed due to absence from school, and that they are encouraged to avoid absences during the testing period.

Equipment and Materials Permitted During Test Administration

The test coordinator and the test administrator are responsible for providing an appropriate testing environment for the assessment. Students may use only the materials permitted for the assessment. These materials are listed for each test session in the Test Administrator Manual and in the table on the next page.

The items on the mathematics test are designed so that calculators are not required to solve any of the problems. The departments of education have set limits on the use of calculators during statewide assessment. These limits specify when calculators may be used during the assessment and which devices are allowable. However, within these limits, the fundamental decision about whether or not to use calculators is made at the local school level.

Calculators are permitted only during Session 2 and Session 3 of the mathematics test at grades 3 through 8, and during Session 2 of the mathematics test at grade 11. Calculators are not permitted on Session 1 of the mathematics test at any grade. If your school does not have enough calculators for all students, students may use their own. Students may not share calculators during testing.

A four-function calculator is sufficient; however, students may use a scientific or graphing calculator. The following devices and/or calculators with the following features are prohibited: pocket organizers, handheld or laptop computers, electronic writing pads or pen-input devices, cellular phones or other
wireless communication devices, and calculators with a “QWERTY” keyboard. If you have a question regarding a particular calculator, please contact your state department of education.

During Session 2 and Session 3 of the mathematics test at grades 3 through 8, schools may decide to provide students with the **NECAP Multiplication Table** or **NECAP Hundreds Chart**, instead of or in addition to a calculator. Schools must use the official NECAP version provided on each state’s department of education website.

**Equipment and Materials Prohibited During Test Administration**

It is important to ensure that no students are either advantaged or disadvantaged during testing by their testing environment.

Reference materials, including those on the classroom walls, should not be used by students. All reference materials printed or attached on student desks should be removed or covered. Any displayed materials in the classroom that interfere with proper test administration are not permitted. It is not possible to list all classroom materials that may potentially create an advantage or disadvantage for students during testing; if in doubt, remove or cover the materials, or reposition students’ desks so the materials cannot be viewed. If there are any questions, call your state director of assessment. (See page i of this manual for contact information.)

Dictionaries of any type and/or thesauruses are not allowed during any session of the assessment, except for word-to-word translation dictionaries allowed as an accommodation for students who are English language learners.

All cell phones must be turned off during testing.

**Ancillary Test Materials**

The table below summarizes the materials used during the NECAP tests and differentiates between those provided by Measured Progress and those provided by schools.

<table>

*For use on the mathematics test in Session 2 and Session 3 only.

§ At grade 5 only, the reference sheet also contains tool kit pieces. While the reference sheet portion may be used during any mathematics test session, the tool kit pieces may only be used during Session 2 and Session 3.
During Testing

Test Administration

Distributing Test Materials

The test coordinator should distribute all prepared test materials to test administrators shortly before the start of the first testing session. Include an additional set of test materials for the test administrator to use while giving directions.

Monitoring Test Administration

Test coordinators should be actively involved in test administration through careful supervision and monitoring of the administration and test security procedures described in this manual.

During the test administration, test administrators should monitor the testing process by moving unobtrusively throughout the room. In moving about the room, test administrators should check that students are working in the correct session, are turning pages when necessary, are marking answers in the proper places, and are not spending too much time on any one item. Students should be reminded to take the task seriously.

Test administrators may not comment on any student work. Test administrators may not help students in any way except during the general instructions, when students are completing the Student Questionnaire, or as specified in the Test Administrator Manual.

Students Who Move During Testing

If a student withdraws from your school after testing has already begun, do not send the test booklet to the student’s new school. When possible, please attempt to contact the new school and notify them of any test sessions that the student has already completed.

Students who enroll in your school after October 1, 2009 should participate, to the extent possible, in NECAP testing. The test coordinator should determine which test session(s) of NECAP, if any, were administered in the student’s prior school. The remaining test session(s) should be administered. If students enroll after October 2, it will be past the deadline for ordering additional labels. If you choose to test this student, you will need to bubble the student information on the answer booklets by hand.

Page 2 of the answer booklet contains a box titled “Blank Reason”. When a student withdraws from or enrolls in your school without fully completing the NECAP test, you must fill in a bubble indicating why the booklet is partially blank. Return these answer booklets with all other used answer booklets.

Any student who withdraws from your school before October 1, and has not taken any test sessions, does not need an answer booklet. If a student ID label was already affixed to an answer booklet, write “VOID” on the cover and return the booklet with all other unused test materials.
After Testing

Collecting Materials After Testing

- Make sure that all test materials have been returned from each test administrator
- Verify that the front cover of every used answer booklet has either a student ID label or bubbled student information
- Check that page 2 of each answer booklet is completed, as necessary
- Make sure that the answer booklets are in good condition and are free of eraser bits
- Remove all loose paper and ensure that no paper has been taped, pasted, stapled, or otherwise attached in the answer booklets
- Make sure that all large-print, Braille, and computer generated responses have been transcribed into regular answer booklets
- Write a detailed note for any materials that will require special handling
- Place all used answer booklets into the envelopes provided for their return
- Pack all materials correctly and secure them until the UPS pick up on October 23, 2009 (October 26 for VT). See page 24 for more details about packing materials for return to Measured Progress.

Special Materials

Special materials include Braille tests, large-print tests, and any materials that will require special handling by Measured Progress. Please carefully follow the procedures explained below and on the following page to ensure the correct return of all special materials.

Braille and Large-Print Tests

Every Braille and large-print version of the test comes with a regular size answer booklet. A test administrator or authorized school personnel must transcribe the student’s work into the accompanying regular answer booklet. Any student work that is not recorded in the regular answer booklet will not be scored.

Envelopes are provided specifically for the return of Braille and large-print tests. The following materials should be returned in the envelope: the Braille or large-print test, the regular answer booklet, the regular test booklet, and the student’s original work (any separate pages that were transcribed).

Special Handling Envelope

The “Special Handling” envelope is intended for the return of any answer booklet that is non-standard. A detailed note explaining why the booklet needs special handling must accompany every booklet. Examples of non-standard booklets include, but are not limited to:
- torn booklets
- booklets that are damaged or got wet during testing
- any booklet with computer generated responses accompanying it

Please note: Computer generated responses must be separated from the answer booklet and transcribed into the correct space in the answer booklet. Anything that has been glued, stapled, taped, or attached to the answer booklet in any other way will not be scored. After transcribing, please return the computer generated responses along with the answer booklet in the “Special Handling” envelope.
Booklets that should **not** be returned in the “Special Handling” envelope include:

- voided booklets
- unused booklets
- booklets for students who withdrew from or enrolled in the school after October 1, 2009
- booklets where standard test accommodations were used

If you have questions or concerns about what to include in the “Special Handling” envelope, please contact the NECAP Service Center at 1-877-632-7774.

**Hazardous Test Materials**

A new hazardous materials policy is in effect for the October 2009 test administration. Materials that have been contaminated with hazardous biological matter, such as blood or vomit, should no longer be returned to Measured Progress. In the case of contaminated test materials, please contact the NECAP Service Center for guidance. The principal may be directed to observe the destruction of a contaminated test or answer booklet and document this situation on the *Principal Certification of Proper Test Administration*.

**Verifying Student Information on Student Answer Booklets**

After testing, the test coordinator is responsible for ensuring that all of the required student information has been correctly recorded in every answer booklet for each student enrolled. Use the instructions below to verify that the necessary student information has been provided on the front cover and page 2 of each answer booklet being returned.

<table>

Completing the Online Principal’s Certification Form

The online Principal’s Certification of Proper Test Administration form certifies that the administration of the test has been completed according to the requirements in this Principal/Test Coordinator Manual. You should complete this form after testing is finished, but BEFORE UPS comes to pick up materials on October 23, 2009 (October 26, 2009 for VT). To complete the online Principal’s Certification of Proper Test Administration, please follow the directions below.

- Locate the green instruction sheet containing the username and password; this sheet was included with the administrative materials that were shipped with the lowest grade tested at your school
- Go to http://iservices.measuredprogress.org
- Select “New England Common Assessment Program” from the drop-down list and click “Enter”
- Select “Principal Certification” from the options in the column on the left
- Follow the online instructions to complete the form for each grade tested.
- Confirm that the electronic form has been submitted correctly – you will see the message “Thank you. Your Principal’s Certification of Proper Test Administration has been successfully submitted” displayed when the form has been correctly submitted
- Repeat the process for each grade tested in your school
- It is not necessary to return a printed and signed copy of this form; an electronic form, submitted online, is all that is required – your digital signature affirms a proper test administration. You may still choose to print a copy for your personal records.
- Please contact the NECAP Service Center at 1-877-632-7774 if you have any questions about submitting your Principal’s Certification of Proper Test Administration.

Completing the Principal/Test Coordinator Questionnaire

The Principal/Test Coordinator Questionnaire is to be completed online as part of the Principal’s Certification of Proper Test Administration. You will not need to log in separately to complete this questionnaire. If you would like to review the questions ahead of time for the online Principal/Test Coordinator Questionnaire, they have been included in Appendix E.

Detailed instructions for the online Test Administrator Questionnaire are located in each Test Administrator Manual. Encourage all test administrators to complete this questionnaire.
Preparing Test Materials for Return

Preparing Answer Booklets

All used answer booklets and any extra papers must be returned in the white plastic envelopes provided. The following materials should be placed in the appropriate envelopes for return:

<table>
<thead>
<tr>
<th>Type of Envelope</th>
<th>Material to Insert</th>
</tr>
</thead>
<tbody>
<tr>
<td>“For Return of Used Answer Documents Only”</td>
<td>All used answer booklets</td>
</tr>
<tr>
<td>“Special Handling”</td>
<td>Any test or answer booklets requiring special attention (see page 21 for details)</td>
</tr>
<tr>
<td>“For Return of Large-Print Tests”</td>
<td>All materials associated with a used large-print test*</td>
</tr>
<tr>
<td>“For Return of Braille Tests”</td>
<td>All materials associated with a used Braille test*</td>
</tr>
<tr>
<td>“For Return of Scratch Paper”</td>
<td>All student scratch paper</td>
</tr>
</tbody>
</table>

*The Large-Print/Braille test booklet, regular size test and answer booklet, and any separate pages that were transcribed.

Preparing Other Test Materials

Please follow the process below to prepare all other test materials for return to Measured Progress.

- For each grade level, separate all used and unused test materials
- Inventory all materials being returned to Measured Progress using the Material Summary Form. Mark the quantity packed for each item under the heading “Qty Returned”. Keep this form for your records.
- Do not use rubber bands, staples, or paper or binder clips when repackaging materials.
- Print “VOID” in large letters on the outside front cover of any test materials that were marked on or labeled and then not used.
- Do not put any voided materials in the special handling envelopes – voided materials should be packed with the other unused test materials

Do Not Return the Following Materials

The following materials do not need to be returned to Measured Progress. You may either dispose of them or keep them for future reference.

- Material Summary Form
- Packing Slips *Secured Material*
- Mathematics tool kits with envelopes
- Mathematics reference sheets
- Rulers and protractors
- Principal/Test Coordinator Manual and Test Administrator Manuals
- Student Questionnaires (students answered in their answer booklets)
- Unused student ID labels
- Optional NECAP School Test Materials Tracking Form
- Optional NECAP Student Enrollment Update Record
**Shipping Test Materials Back**

Use your original shipping boxes for the return shipment of materials. Your set of test materials will include UPS return service (RS) labels for shipping the boxes back to Measured Progress. You will receive the same number of RS labels as the number of boxes shipped to your school. If you use fewer boxes to return materials, please include any unused RS labels in one of the return boxes. Remember to keep the RS labels and original boxes in a safe place until you are ready to pack materials for return.

The bar code label on the box must be intact and unobscured. If the bar code is missing, or if you need to use other boxes, write your school name and return address on the box. Remove, cross out, or tape over any old address labels.

**Pack test materials for one grade only per box.** For example, if your school includes both grade 3 and grade 4, pack grade 3 in one box and grade 4 in a different box. Do not combine grades in a box, even if they will fit.

The test materials for each grade should be packed in the boxes in the following order from top to bottom:

<table>
<thead>
<tr>
<th>Top of Box 1</th>
</tr>
</thead>
<tbody>
<tr>
<td>“Special Handling” envelope (if applicable)</td>
</tr>
<tr>
<td>“Large-Print tests” envelope (if applicable)</td>
</tr>
<tr>
<td>“Braille tests” envelope (if applicable)</td>
</tr>
<tr>
<td>“Scratch Paper” envelope</td>
</tr>
<tr>
<td>“For Return of Used Answer Documents” envelopes – ALL used answer booklets must be in these envelopes</td>
</tr>
<tr>
<td>Used test booklets</td>
</tr>
<tr>
<td>Any unused student test materials (including voided materials)</td>
</tr>
</tbody>
</table>

<table>
<thead>
<tr>
<th>Bottom of Box 1 or Last Box</th>
</tr>
</thead>
</table>

Reseal the boxes with heavy-duty packing tape. Remove all labels on the boxes except the Measured Progress bar code label and affix one UPS RS label to each box. Mark each box “1 of 1” or “1 of 2,” “2 of 2,” etc.

**UPS is scheduled to arrive at your school on Friday, October 23 to pick up your boxes (Monday, October 26, for VT). UPS can arrive anytime during school hours, therefore all test materials must be packed by 8:00 a.m.** UPS may come anytime during the day and will not wait for you to complete packing the materials. Materials must remain secure until they are picked up by UPS. Do not contact UPS directly. Prior arrangements have been made by Measured Progress specifically for the pick up of NECAP test materials. Please note that the pick up may not be made by your regular UPS personnel at your regularly scheduled time. **This is the ONLY scheduled pick-up date.**

**Thank you very much for your help in coordinating the New England Common Assessment Program**

Appendix C: Instructions for Completing Student Information on Answer Booklets

Test administrators or authorized school personnel are responsible for properly affixing student ID labels in the appropriate space provided on the answer booklets. For students who do not have a student ID label available for them, test administrators or authorized school personnel are responsible for completing the student information on the front cover. The test coordinator is responsible for verifying that the information has been completed correctly.

Use the instructions below to complete the student information sections located on the front cover and page 2 of the answer booklets.

Front cover (for students without a student ID label)

Student Name
Write in the student’s last name, first name, and middle initial in the spaces provided and then bubble in the corresponding circles below that match those letters.

State Assigned Student ID (ME and NH only)
Write in the state assigned student ID number in the spaces provided and then bubble in the corresponding circles below that match those numbers.

Birth Date
Bubble in the month of the student’s birthday. Write the number of the day and year the student was born in the spaces provided and then bubble in the corresponding circles below that match those numbers.

Page 2 (to be completed after testing has concluded, if applicable)

Accommodations Used
If a student used any accommodation(s) listed in the Table of Standard Test Accommodations, bubble in the circle that corresponds to the accommodation(s) for each content area. (The Table of Standard Test Accommodations is printed in Appendix F of this manual.)

Blank Reason
If a student’s answer booklet is being returned blank in one or more sessions in a content area, bubble in the circle next to the most appropriate reason available.

Homeschooled
Bubble in the circle if the student is a homeschooled student and is not enrolled in the school.

Optional Reports
If your school chooses to use this field, bubble in the circles according to the school’s key. Only one circle per row may be bubbled in. Keep a record of the key used. See page 16 for more details on using this field.

Research
School personnel do not complete this section of the answer booklet. For Measured Progress use only.
Appendix D: Frequently Asked Questions

Q: Some of my labels have the wrong date of birth. Can I still use them?
A: Yes, only the student name and school name need to be correct. Labels can still be used with an incorrect date of birth. You should still inform your state department of education of the correct date of birth for the student. (The NECAP Service Center cannot update incorrect birth dates.) Additionally, a label can be used if the grade is incorrect. The grade is determined by the grade-level of the answer booklet, not what is printed on the label.

Q: I affixed labels to booklets for a student who is no longer enrolled in my school. What should I do?
A: If the student withdrew from your school before October 1, write “VOID” on the booklets and return them as unused booklets. If the student withdrew after October 1, fill in the appropriate bubble in the “Blank Reason” box on page 2 of the answer booklet and return the booklet with all other used booklets.

Q: I ordered additional student ID labels. Can I start testing before they arrive?
A: Yes. Write the student’s name, school name, and district name in the space where the label will go. You do not need to complete the bubbled information. When the labels arrive, affix the labels to the booklets before returning them to Measured Progress.

Q: I’m not sure if I correctly ordered my additional student ID labels. How can I verify that the order has gone through?
A: For RI and VT schools, a “Y” will appear next to the student’s name when you are logged into the label ordering section of the Measured Progress website (http://iservices.measuredprogress.org).

For ME schools, all labels are generated through the data in MEDMS/Infinite Campus. Ensure that all students with valid enrollments in the system.

For NH schools, you will need to call your district i4see contact to verify your order. District i4see contacts are listed at www.ed.state.nh.us/education/datacollection/i4see/i4seecontacts.asp

Q: Why hasn’t my order of additional labels arrived yet?
A: All additional labels will be shipped at one time, on October 9.

Q: I made a mistake while ordering additional student ID labels. How do I correct this?
A: For RI and VT schools, call the NECAP Service Center at 1-877-632-7774. For ME schools, contact the MEDMS helpdesk for assistance: 207-624-6896 or medms.helpdesk@maine.gov. For NH schools, you will need to call your district i4see contact.

Q: I have labels for students who are not in my school. Should I still put them on booklets?
A: No. Any labels for students who are not enrolled in your school should be destroyed.

Q: How should I return booklets that have been voided?
A: Return any booklets that are voided with the rest of your unused test materials. Booklets with “VOID” written on them are not processed or scored, even if there is student work in them. If you mistakenly voided a booklet, return it in the “Special Handling” envelope with a note explaining what happened.
Q: A student moved during the testing window (October 1-22). Should I forward his test materials to his new school?
A: No. Test materials should never be transferred/transported between schools. The student should complete as much of the test as possible, following your testing schedule, before his move. Fill in the appropriate bubble in the “Blank Reason” box on page 2 of the answer booklet and return the booklet with all other used booklets. Contact the student’s new school to inform them which sessions were completed at your school. The student’s new school should provide a new set of materials and complete the remaining test sessions.

Q: One of my students wrote on separate paper outside the answer booklet. Can I tape the paper into the answer space?
A: No. Any answers written outside of the answer booklet MUST be transcribed into the answer booklet. This includes Braille, large-print, computer-generated responses, and any other answers written on separate paper. Work that is transcribed into the answer booklet by school personnel requires that an appropriate accommodation is marked on page 2 of the answer booklet. If pages are taped, stapled, etc. into the answer booklets, they will be removed and not scored. Only responses written within the response spaces in the answer booklet will be scored.

Q: What happens if I mark an accommodation from “Other (O)”, or “Modifications (M)”?
A: If O1 or O2 is bubbled and the state department of education has documented approval of the accommodation, then the student’s work will be scored. If the state department of education has not approved the accommodation, the student’s work will be invalidated and will not be scored. If M1, M2, or M3 are marked, the student’s work will be invalidated and not scored.

Q: Where can I find the NECAP Multiplication Table and NECAP Hundreds Chart?
A: These materials are only available on each state’s department of education website (see page i of this manual for website addresses). They should be downloaded and copied in the school. These are not required materials; schools may decide whether or not to provide these materials to students.

Q: Where do I find my password for ordering additional student ID labels or completing the online Principal’s Certification of Proper Test Administration?
A: The same password can be used for ordering additional student ID labels, completing the Principal’s Certification of Proper Test Administration, and completing the online Principal/Test Coordinator Questionnaire. Your password can be found in two places: on the white instructions sheet that came in the envelope with your student ID labels or on the green instructions sheet for the Principal’s Certification of Proper Test Administration that came in the administrative materials box. If you have difficulty locating your password, or if your password is not working, please contact the NECAP Service Center.

Q: I need multiple copies of the same test form in order to administer the test to a small group of students with the same accommodation(s). What should I do?
A: In specific situations like this one, you may collect enough copies of the same test form from different packs of test materials. If you are unable to collect enough copies, call the NECAP Service Center to request the number of copies of a specific form that you require.
Appendix E: Principal/Test Coordinator Questionnaire

The Principal/Test Coordinator Questionnaire questions are included below for reference purposes only. Please complete this questionnaire online as part of the Principal’s Certification of Proper Test Administration.

1. Please rate the system for acquiring additional student labels?
   A. The system worked well.
   B. The system was somewhat confusing.
   C. I chose not to use the system.
   D. I did not need to acquire additional student labels.
   E. I did not know about the system for acquiring additional student labels.

2. Please rate the quality of the logistics associated with the receipt of materials (timeliness, consistency between Materials Summary Form and actual received inventory, etc.).
   A. Very good
   B. Good
   C. Adequate
   D. Poor

3. Please rate the NECAP Service Center (responsive, polite personnel).
   A. Very Good
   B. Good
   C. Adequate
   D. Poor
   E. Did not use the NECAP Service Center

4. Please rate the logistics associated with the return of test materials (clear directions and procedures, etc.).
   A. Very good
   B. Good
   C. Adequate
   D. Poor

5. Who functions as the NECAP test coordinator in your school?
   A. principal or assistant principal
   B. guidance counselor
   C. teacher
   D. other

6. Which type of test administration workshop did you attend?
   A. I attended a regional workshop in my state.
   B. I viewed the presentations provided to schools on CD.
   C. I did not attend a workshop.
   D. I did not know there were workshops.
   E. I attended a regional workshop and viewed the presentations on CD.

7. How well did the level of information provided at the regional workshop meet your needs?
   A. It was insufficient.
   B. It was adequate.
   C. It was more than is necessary.
   D. I did not attend a regional workshop in my state.
8. How well did the level of information provided on the presentations provided to schools on CD meet your needs?
   A. It was insufficient.
   B. It was adequate.
   C. It was more than is necessary.
   D. My school did not use the presentations.
   E. I did not know about the presentations on CD.

9. Please rate the Principal/Test Coordinator Manual (clear, comprehensive, etc.).
   A. Very good
   B. Good
   C. Adequate
   D. Poor

10. Which statement best describes how your staff was prepared to administer the test?
    A. All teachers were provided with the Test Administrator Manual in advance.
    B. All teachers read the Test Administrator Manual and attended a faculty meeting on the topic.
    C. All teachers read the Test Administrator Manual and attended a faculty meeting where the presentations on CD were shown.
    D. Another method not listed above.

11. Which statement best describes the test administration schedule (not counting make-up testing) for grades 3, 4, and 5 in your school?
    A. Students took all sessions of NECAP in about 1 week.
    B. Students took all sessions of NECAP in about 2 weeks.
    C. Students took all sessions of NECAP in about 3 weeks.
    D. My school does not have enrollment at any of these grades.

12. Which statement best describes the test administration schedule (not counting make-up testing) for grades 6, 7, and 8 in your school?
    A. Students took all sessions of NECAP in about 1 week.
    B. Students took all sessions of NECAP in about 2 weeks.
    C. Students took all sessions of NECAP in about 3 weeks.
    D. My school does not have enrollment at any of these grades.

13. Which statement best describes the test administration schedule (not counting make-up testing) for grade 11 in your school?
    A. Students took all sessions of NECAP in about 1 week.
    B. Students took all sessions of NECAP in about 2 weeks.
    C. Students took all sessions of NECAP in about 3 weeks.
    D. My school does not have enrollment at this grade.

14. Which statement best describes your opinion of completing the Principal/Test Coordinator Questionnaire online?
    A. It is a better way to administer the questionnaire than with paper and pencil; please continue this in the future.
    B. I am comfortable completing the questionnaire either online or with paper and pencil.
    C. It was somewhat difficult to use, but I would be willing to try it again next year.
    D. I strongly dislike completing the questionnaire online; please go back to paper and pencil.
15. Which statement best describes the implementation of the grade 3–8 *NECAP Grade Level Expectations (GLEs)* or the High School *Grade Span Expectations (GSEs)* for reading, mathematics, and writing in your school?
   A. The *GLEs* or *GSEs* have been fully integrated into the program of study at our school.
   B. Our school is working on the implementation of *GLEs* or *GSEs*, but they are not yet totally integrated.
   C. Our school is just beginning the implementation of *GLEs* or *GSEs*.
   D. We have not started to integrate the *GLEs* or *GSEs* with the program of study at our school.
   E. We do not intend to integrate the *GLEs* or *GSEs* with the program of study at our school.

16. What best describes your school’s math program?
   A. Traditional (Algebra I, Geometry I, Algebra II, etc.)
   B. Integrated (Integrated Mathematics I, Integrated Mathematics II)
   C. I don’t know.
Any accommodation(s) used for the assessment of an individual student will be the result of a team decision made at the local level. All decisions regarding the use of accommodations must be made on an individual student basis – not for a large group, entire class, or grade level. Accommodations are available to all students on the basis of individual need regardless of disability status and should be consistent with the student’s normal routine during instruction and assessment. This table is not intended to be used as a stand-alone document and should always be used in conjunction with the NECAP Accommodations Guide.

### T. Timing

<table>
<thead>
<tr>
<th>Code</th>
<th>Tests were administered</th>
<th>Details on Delivery of Accommodations</th>
</tr>
</thead>
<tbody>
<tr>
<td>T1</td>
<td>with time to complete a session extended beyond the scheduled administration time within the same day.</td>
<td>NECAP tests are not designed to be timed or speeded tests. The scheduled administration time already includes additional time and the vast majority of students complete the test session within that time period. Extended time within a single sitting may be needed by students who are unable to meet time constraints. A test session may be extended until the student can no longer sustain the activity.</td>
</tr>
<tr>
<td>T2</td>
<td>so that only a portion of the test session was administered on a particular day.</td>
<td>In rare and severe cases, the extended time accommodation (T1) may not be adequate for a student not able to complete a test session within a single day. A test session may be administered to a student as two or more “mini-sessions” if procedures are followed to maintain test security and ensure that the student only has access to the items administered on that day (see the NECAP Accommodations Guide for details).</td>
</tr>
<tr>
<td>T3</td>
<td>with short, supervised breaks.</td>
<td>Multiple or frequent breaks may be required by a student whose attention span, distractibility, or physical condition, requires shorter working periods.</td>
</tr>
<tr>
<td>T4</td>
<td>at the time of day or day of week that takes into account the student’s medical needs or learning style.</td>
<td>Individual scheduling may be used for a student whose school performance is noticeably affected by the time of day or day of the school week on which it is done. This accommodation may not be used specifically to change the order of administration of test sessions. This accommodation must not result in the administration of a test session to an individual student prior to the regularly scheduled administration time for that session for all students.</td>
</tr>
</tbody>
</table>

### S. Setting

<table>
<thead>
<tr>
<th>Code</th>
<th>Tests were administered</th>
<th>Details on Delivery of Accommodations</th>
</tr>
</thead>
<tbody>
<tr>
<td>S1</td>
<td>in a separate location within the school by trained school personnel.</td>
<td>A student or students may be tested individually or in small groups in an alternative site within the school to reduce distractions for themselves or others, or to increase physical access to special equipment.</td>
</tr>
<tr>
<td>S2</td>
<td>in an out-of-school setting by trained school personnel.</td>
<td>Out-of-school testing may be used for a student who is hospitalized or tutored because they are unable to attend school. The test must be administered by trained school personnel familiar with test administration procedures and guidelines. Relatives/guardians of the student may not be used as the test administrator.</td>
</tr>
<tr>
<td>Code</td>
<td>Tests were administered</td>
<td>Details on Delivery of Accommodations</td>
</tr>
<tr>
<td>------</td>
<td>-------------------------</td>
<td>--------------------------------------</td>
</tr>
<tr>
<td>P1</td>
<td>individually.</td>
<td>Individual or small group testing may be used to minimize distractions for a student or students whose test is administered out of the classroom or so that others will not be distracted by other accommodations being used (e.g., dictation)</td>
</tr>
<tr>
<td>P2</td>
<td>in a small group.</td>
<td></td>
</tr>
<tr>
<td>P3</td>
<td>with test and directions read aloud in English or signed to the student. (NOT allowed for the Reading test.)</td>
<td>A reader may be used for a student whose inability to read would hinder performance on the Mathematics, Science, or Writing test. Words must be read as written. Guidelines for reading mathematical symbols must be followed. No translations (with the exception of signed language) or explanations are allowed. Trained personnel may use sign language to administer the test.</td>
</tr>
<tr>
<td>P4</td>
<td>with only test directions read aloud or signed to the student.</td>
<td>A reader may be used for a student whose inability to read or locate directions would hinder performance on the test. Note that most directions on the NECAP test occur at the beginning of the test session and are already read aloud by the test administrator. Guidelines for what are and are not “test directions” must be followed. With the exception of sign language and the case of students enrolled in a program where the test administrator routinely presents information in a foreign language, directions may not be translated.</td>
</tr>
<tr>
<td>P5</td>
<td>with administrator verification of student understanding following the reading of test directions.</td>
<td>After test directions have been read, the test administrator may ask the student to explain what he/she has been asked to do. If directions have been misunderstood by the student, the test directions may be paraphrased or demonstrated. Test items MUST NOT be paraphrased or explained.</td>
</tr>
<tr>
<td>P6</td>
<td>using alternative or assistive technology that is part of the student’s communication system.</td>
<td>The test may be presented through his/her regular communication system to a student who uses alternative or assistive technology on a daily basis. Technology may not be used to “read” the Reading test to the student.</td>
</tr>
<tr>
<td>P7</td>
<td>by trained school personnel known to the student other than the student’s classroom teacher.</td>
<td>A student may be more comfortable with a test administrator who works with the student on a regular basis, but is not the student’s regular teacher for the general curriculum or other staff assigned as test administrator. All test administrators must be trained school personnel familiar with test administration and accommodations procedures and guidelines.</td>
</tr>
<tr>
<td>P8</td>
<td>using a large-print version of assessment.</td>
<td>Both large-print and Braille versions of the assessment require special preparation and processing and must be pre-ordered.</td>
</tr>
<tr>
<td>P9</td>
<td>using Braille version of assessment.</td>
<td>Directions for ordering these materials are included in communications sent to school principals prior to the test.</td>
</tr>
<tr>
<td>P10</td>
<td>using a word-to-word translation dictionary for ELL students. (NOT allowed for the Reading test.)</td>
<td>A student with limited English proficiency may have a word-to-word dictionary available for individual use as needed. A word-to-word dictionary is one that does not include any definitions. Information on acceptable dictionaries is provided on the departments’ websites.</td>
</tr>
<tr>
<td>P11</td>
<td>using visual or auditory supports.</td>
<td>The test may be presented using visual aids such as visual magnification devices, reduction of visual print by blocking or other techniques, or acetate shields; or auditory devices such as special acoustics, amplification, noise buffers, whisper phones, or calming music.</td>
</tr>
<tr>
<td>Code</td>
<td>Tests were administered</td>
<td>Details on Delivery of Accommodations</td>
</tr>
<tr>
<td>------</td>
<td>------------------------</td>
<td>--------------------------------------</td>
</tr>
<tr>
<td>R1</td>
<td>with a student <strong>dictating</strong> responses to school personnel. (<strong>NOT allowed for the Writing test.</strong> See O2 – using a scribe for the Writing test.)</td>
<td>A student may dictate answers to constructed-response or short-answer questions to locally trained personnel or record oral answers in an individual setting so that other students will not benefit by hearing answers or be otherwise disturbed. Policies regarding recorded answers must be followed prior to returning test materials.</td>
</tr>
<tr>
<td>R2</td>
<td>with a student <strong>dictating</strong> responses using alternative or assistive technology/devices that are part of the student’s communication system. (<strong>NOT allowed for the Writing test.</strong> See O2 – using a scribe for the Writing test.)</td>
<td>Technology is used to permit a student to respond to the test. When using a computer, word processing device, or other assistive technology, spell and grammar checks must be turned off. Policies regarding recorded answers must be followed prior to returning test materials.</td>
</tr>
<tr>
<td>R3</td>
<td>with a student using approved tools or devices to minimize distractions.</td>
<td>Noise buffers, place markers, carrels, etc. may be used to minimize distractions for the student. This accommodation does NOT include assistive devices such as templates, graphic organizers, or other devices intended specifically to help students organize thinking or develop a strategy for a specific question.</td>
</tr>
<tr>
<td>R4</td>
<td>with a student <strong>writing</strong> responses using separate paper, a word processor, computer, brailler, or similar device.</td>
<td>A student may use technological or other tools (e.g., large-spaced paper) to write responses to constructed-response, short-answer, and extended response items. A key distinction between this accommodation and R2 is that the student using this accommodation is responding in writing rather than dictating. When using a computer, word processing device, or other assistive technology, spell and grammar checks must be turned off, as well as access to the Web. This accommodation is intended for unique individual needs, not an entire class. Policies regarding recorded answers must be followed prior to returning test materials.</td>
</tr>
<tr>
<td>R5</td>
<td>with a student indicating responses to multiple-choice items to school personnel.</td>
<td>A student unable to write or otherwise unable to fill-in answers to multiple-choice questions may indicate a response to trained school personnel. The school personnel records the student’s response in the student answer booklet.</td>
</tr>
<tr>
<td>R6</td>
<td>with a student responding with the use of visual aids.</td>
<td>Visual aids include any optical or non-optical devices used to enhance visual capability. Examples include magnifiers, special lighting, markers, filters, large-spaced paper, color overlays, etc. An abacus may also be used for student with severe visual impairment or blindness on the Mathematics and Science tests. Note that the use of this accommodation still requires student responses to be recorded in a student answer booklet.</td>
</tr>
<tr>
<td>R7</td>
<td>with a student with limited English proficiency responding with use of a word-to-word dictionary. (<strong>NOT allowed for the Reading test.</strong>)</td>
<td>A student with limited English proficiency may have a word-to-word dictionary available for individual use as needed when responding. A word-to-word dictionary is one that does not include any definitions. Information on acceptable dictionaries is provided on each Department’s website.</td>
</tr>
</tbody>
</table>
O. Other
These accommodations require DOE approval.

<table>
<thead>
<tr>
<th>Code</th>
<th>Tests were administered</th>
<th>Details on Delivery of Accommodations</th>
</tr>
</thead>
<tbody>
<tr>
<td>O1</td>
<td>using other accommodation(s) not on this list, requested by the accommodations team.</td>
<td>An IEP team or other appropriate accommodation team may request that a student be provided an accommodation not included on this standard list of accommodations. Like all other accommodations, these should be consistent with the student’s normal routine during instruction and/or assessment. Requests should be made to the DOE when accommodation plans are being made for a student prior to testing. DOE approval must be received for the requested accommodation to be coded as an O1 accommodation. Non-approved accommodations used during test administration will be coded as an M3 modification.</td>
</tr>
<tr>
<td>O2</td>
<td>with a scribe used on the Writing test.</td>
<td>The use of a scribe for students dictating a response to the Writing test may only be used under limited circumstances and must be approved by the DOE. When approved as an accommodation, the scribe must follow established guidelines and procedures.</td>
</tr>
</tbody>
</table>

M. Modifications
All modifications result in impacted items being scored as incorrect.

<table>
<thead>
<tr>

</thead>
<tbody>
<tr>
<td>M1</td>
<td>using a calculator and/or manipulatives on Session 1 of the Mathematics test or using a scientific or graphing calculator on Session 3 of the Science test</td>
<td>Inappropriate use of a calculator or other tools will result in impacted items being scored as incorrect.</td>
</tr>
<tr>
<td>M2</td>
<td>with the test administrator reading the Reading test.</td>
<td>The read aloud accommodation (P3) is not allowed for the Reading test. If it is used, all reading items in the sessions that are read aloud will be scored as incorrect.</td>
</tr>
<tr>
<td>M3</td>
<td>using an accommodation on this list not approved for a particular test or an accommodation not included on this list without prior approval of the DOE.</td>
<td>Inappropriate use of an accommodation included on this list or use of another accommodation without prior approval of the DOE will result in impacted items being scored as incorrect.</td>
</tr>
</tbody>
</table>

Note: English Language Learners may qualify for any of the accommodations listed as appropriate and determined by a team. Refer to the *NECAP Accommodations Guide* for additional information.
APPENDIX G: Optional NECAP School Test Materials Tracking Form

The test coordinator is responsible for the security of test materials and developing a system for tracking test materials while they are on school premises. The test coordinator must be able to verify that testing materials are being distributed accurately, identify the location of materials at any given time during test administration, and locate any misplaced materials. The following form is an example of one way to track the whereabouts of test materials. In ME, NH, and VT, you may modify this form or create your own; this form is available to download from your state’s department of education website. Tracking documents should be attached to any and all containers used to distribute test materials during test administration. Tracking documents should be stored securely with test materials when not in use. It is recommended that you store any tracking documents in a secure location after testing has ended for future reference regarding test materials and their distribution. Please note that Rhode Island schools must use the tracking sheet included in their RI Test Security packets.

Appendix H: Optional NECAP Student Enrollment Update
Record 2009

All students at appropriate grades are required to participate in the New England Common Assessment Program. However, some unexpected participation issues may occur due to changes in enrollment or other situations as described below. It is recommended that you track these situations to serve as the school’s record for use in verifying NECAP participation. This information should be stored in a secure place and accessible to you during NECAP reporting. This form is available to download from your state’s department of education website and can be modified to suit your needs.

In the cells below, please write the students’ SASID numbers (if applicable), names, grade levels, and the codes documenting the reason they are not able to participate in a subject test.

Reason Codes
1  student withdrew from school after October 1, 2009
2  student enrolled in school after October 1, 2009
3  state-approved special consideration
4  student was enrolled on October 1, 2009, and did not complete test for reasons other than those above
5  student enrolled in school after October 1, 2009, after this content area was administered and student was unable to participate in a make-up session
6  Student complete the alternate assessment for the 2008–2009 school year
7  Student is new to the U.S. after October 1, 2008 and is LEP and took the ACCESS test of English language proficiency as scheduled in their state. This student must take the NECAP mathematics test.
8  “Other (O)” accommodations not approved by the DOE. “Other (O)” accommodations used without approval will invalidate the session(s) in which they were used and no credit will be given.
9  “Modifications (M)” - accommodations from this section will invalidate the session(s) in which they were used and no credit will be given.
10 Other
