Southwest New Hampshire Math Partnership Project

Project Goals and Objectives:

Goal 1:
Increase mathematical content knowledge and mathematical process knowledge of teachers. These two aspects are highly interconnected and thus are subsumed under one goal to highlight this connectedness.
Mathematical content knowledge
Mathematical process knowledge

Goal 2:
Increase teachers' competence and confidence with best practice models of planning.

Goal 3:
Increase teachers' competence and confidence in using inquiry-based pedagogy.

Goal 4:
Increase teachers' competence and confidence to meet the needs of all children.

Goal 5:
Involve principals and administrators.

Goal 6:
Develop a collegial and collaborative network in Keene.
