Percentage of High School Students Who Rarely or Never Wore a Seat Belt,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*When riding in a car driven by someone else
†M > F; 11th > 9th, 12th > 9th, 12th > 10th, 12th > 11th; B > W, H > B, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN8
Percentage of High School Students Who Rarely or Never Wore a Seat Belt,* 1993-2017†

*When riding in a car driven by someone else
†Decreased 1993-2017 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).] Data not available for 1997, 1999, 2001.
Note: This graph contains weighted results.
Percentage of High School Students Who Rode with a Driver Who Had Been Drinking Alcohol,* by Sex, Grade,† and Race/Ethnicity,‡ 2017

*In a car or other vehicle, one or more times during the 30 days before the survey
†12th > 11th; B > W, H > W (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN9
Percentage of High School Students Who Rode with a Driver Who Had Been Drinking Alcohol,* 1993-2017†

*In a car or other vehicle, one or more times during the 30 days before the survey
†Decreased 1993-2017, decreased 1993-2011, decreased 2011-2017 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Note: This graph contains weighted results.
Percentage of High School Students Who Drove a Car or Other Vehicle When They Had Been Drinking Alcohol,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*One or more times during the 30 days before the survey, among students who had driven a car or other vehicle during the 30 days before the survey
†M > F; 11th > 10th, 12th > 9th, 12th > 10th; B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Drove a Car or Other Vehicle When They Had Been Drinking Alcohol,* 2013-2017†

*One or more times during the 30 days before the survey, among students who had driven a car or other vehicle during the 30 days before the survey

†Decreased 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.

Percentage of High School Students Who Texted or E-Mailed While Driving a Car or Other Vehicle,* by Sex, Grade,† and Race/Ethnicity, 2017

*On at least 1 day during the 30 days before the survey, among students who had driven a car or other vehicle during the 30 days before the survey
†10th > 9th, 11th > 9th, 11th > 10th, 12th > 9th, 12th > 10th, 12th > 11th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN11
Percentage of High School Students Who Texted or E-Mailed While Driving a Car or Other Vehicle,* 2013-2017†

*On at least 1 day during the 30 days before the survey, among students who had driven a car or other vehicle during the 30 days before the survey

†Decreased 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.
Percentage of High School Students Who Carried a Weapon,* by Sex,† Grade,‡ and Race/Ethnicity,‡ 2017

*Such as a gun, knife, or club, on at least 1 day during the 30 days before the survey
†M > F; 11th > 9th, 11th > 10th, 12th > 9th, 12th > 10th; H > B, H > W (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Carried a Weapon on School Property,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Such as a gun, knife, or club, on at least 1 day during the 30 days before the survey
†M > F; 11th > 9th, 11th > 10th, 12th > 9th, 12th > 10th; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Did Not Go to School Because They Felt Unsafe at School or on Their Way to or from School,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*On at least 1 day during the 30 days before the survey
†F > M; 9th > 11th; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Did Not Go to School Because They Felt Unsafe at School or on Their Way to or from School,* 1993-2017†

*On at least 1 day during the 30 days before the survey
†Increased 1993-2017 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Note: This graph contains weighted results.
Percentage of High School Students Who Were Threatened or Injured with a Weapon on School Property,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Such as a gun, knife, or club, one or more times during the 12 months before the survey
†M > F; 9th > 12th, 10th > 12th; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were in a Physical Fight,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*One or more times during the 12 months before the survey
†M > F; 9th > 11th, 9th > 12th, 10th > 11th, 10th > 12th; B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Ever Physically Forced to Have Sexual Intercourse, * by Sex, † Grade, † and Race/Ethnicity, † 2017

*When they did not want to
†F > M; 11th > 9th, 12th > 9th, 12th > 10th; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN19
Percentage of High School Students Who Were Ever Physically Forced to Have Sexual Intercourse,* 2003-2017†

*When they did not want to
†No change 2003-2017 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Experienced Sexual Violence,* by Sex,† Grade, and Race/Ethnicity,† 2017

*Being forced by anyone to do sexual things [counting such things as kissing, touching, or being physically forced to have sexual intercourse] that they did not want to, one or more times during the 12 months before the survey
†F > M; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Experienced Sexual Dating Violence,* by Sex,† Grade, and Race/Ethnicity,‡ 2017

*Being forced by someone they were dating or going out with to do sexual things [counting such things as kissing, touching, or being physically forced to have sexual intercourse] that they did not want to, one or more times during the 12 months before the survey, among students who dated or went out with someone during the 12 months before the survey.

†F > M; H > W (Based on t-test analysis, p < 0.05.)

‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN21
Percentage of High School Students Who Experienced Sexual Dating Violence,* 2013-2017†

*Being forced by someone they were dating or going out with to do sexual things [counting such things as kissing, touching, or being physically forced to have sexual intercourse] that they did not want to, one or more times during the 12 months before the survey, among students who dated or went out with someone during the 12 months before the survey.

†Decreased 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.
Percentage of High School Students Who Experienced Physical Dating Violence,* by Sex,† Grade, and Race/Ethnicity,† 2017

*Being physically hurt on purpose by someone they were dating or going out with [counting such things as being hit, slammed into something, or injured with an object or weapon] one or more times during the 12 months before the survey, among students who dated or went out with someone during the 12 months before the survey.
†F > M; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

*Being physically hurt on purpose by someone they were dating or going out with [counting such things as being hit, slammed into something, or injured with an object or weapon] one or more times during the 12 months before the survey, among students who dated or went out with someone during the 12 months before the survey.

†No change 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.
Percentage of High School Students Who Were Bullied on School Property,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Ever during the 12 months before the survey
†F > M; 9th > 11th, 9th > 12th, 10th > 11th, 10th > 12th, 11th > 12th; H > B, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN23
Percentage of High School Students Who Were Bullied on School Property,* 2009-2017†

*Ever during the 12 months before the survey
†No change 2009-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Note: This graph contains weighted results.
Percentage of High School Students Who Were Electronically Bullied,* by Sex,† Grade,† and Race/Ethnicity, 2017

*Counting being bullied through texting, Instagram, Facebook, or other social media, ever during the 12 months before the survey
†F > M; 9th > 11th, 9th > 12th, 10th > 12th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Were Electronically Bullied,*
2011-2017†

*Counting being bullied through texting, Instagram, Facebook, or other social media, ever during the 12 months before the survey
†Decreased 2011-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Felt Sad or Hopeless,* by Sex,† Grade,‡ and Race/Ethnicity,‡ 2017

*Almost every day for >=2 weeks in a row so that they stopped doing some usual activities, ever during the 12 months before the survey
†F > M; 12th > 9th; H > B, H > W (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN25
**Percentage of High School Students Who Felt Sad or Hopeless,*, 2003-2017†**

*Almost every day for >=2 weeks in a row so that they stopped doing some usual activities, ever during the 12 months before the survey.

†No change, 2003-2007, increased, 2007-2017 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Seriously Considered Attempting Suicide,* by Sex,† Grade, and Race/Ethnicity,† 2017

*Ever during the 12 months before the survey
†F > M; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN26
Percentage of High School Students Who Seriously Considered Attempting Suicide,* 1993-2017†

*Ever during the 12 months before the survey
†Decreased 1993-2017, decreased 1993-2009, increased 2009-2017 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Note: This graph contains weighted results.
Percentage of High School Students Who Attempted Suicide,* by Sex,† Grade,‡ and Race/Ethnicity,‡ 2017

*One or more times during the 12 months before the survey
†F > M; 9th > 12th, 11th > 12th; B > W, H > W (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Attempted Suicide,* 1993-2017†

*One or more times during the 12 months before the survey
†Decreased 1993-2017, decreased 1993-2007, no change 2007-2017 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

Note: This graph contains weighted results.
Percentage of High School Students Who Had a Suicide Attempt That Resulted in an Injury, Poisoning, or Overdose That Had to Be Treated by a Doctor or Nurse,* by Sex,† Grade, and Race/Ethnicity,† 2017

*During the 12 months before the survey  
†F > M; H > W (Based on t-test analysis, p < 0.05.)  
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.  
Note: This graph contains weighted results.
Percentage of High School Students Who Had a Suicide Attempt That Resulted in an Injury, Poisoning, or Overdose That Had to Be Treated by a Doctor or Nurse,* 1993-2017†

*During the 12 months before the survey
†Decreased 1993-2017 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]

New Hampshire - YRBS, 2017 - QNSODA3
Percentage of High School Students Who Drank a Can, Bottle, or Glass of Soda or Pop Three or More Times Per Day,* 2015-2017†

*Such as Coke, Pepsi, or Sprite, not counting diet soda or diet pop, during the 7 days before the survey
†Decreased 2015-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.

New Hampshire - YRBS, 2015-2017 - QNSODA3
Percentage of High School Students Who Were Physically Active at Least 60 Minutes Per Day on 5 or More Days,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*In any kind of physical activity that increased their heart rate and made them breathe hard some of the time during the 7 days before the survey
†M > F; 9th > 11th, 9th > 12th, 10th > 11th; W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN79
Percentage of High School Students Who Were Physically Active at Least 60 Minutes Per Day on 5 or More Days,* 2013-2017†

*In any kind of physical activity that increased their heart rate and made them breathe hard some of the time during the 7 days before the survey
†No change 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.

Percentage of High School Students Who Did Not Participate in at Least 60 Minutes of Physical Activity on at Least 1 Day,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*In any kind of physical activity that increased their heart rate and made them breathe hard some of the time during the 7 days before the survey
†F > M; 11th > 9th, 12th > 9th; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Did Not Participate in at Least 60 Minutes of Physical Activity on at Least 1 Day,* 2013-2017†

*In any kind of physical activity that increased their heart rate and made them breathe hard some of the time during the 7 days before the survey
†No change 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Were Physically Active at Least 60 Minutes Per Day on All 7 Days,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*In any kind of physical activity that increased their heart rate and made them breathe hard some of the time during the 7 days before the survey
†M > F; 9th > 11th; B > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN94
Percentage of High School Students Who Did Something to Purposely Hurt Themselves Without Wanting to Die,* 2013-2017†

*Such as cutting or burning themselves on purpose one or more times during the 12 months before the survey
†No change 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Drank Five or More Drinks of Alcohol in a Row,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Within a couple of hours on at least 1 day during the 30 days before the survey
†M > F; 10th > 9th, 11th > 9th, 12th > 9th, 12th > 10th, 12th > 11th; H > B, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN95
Percentage of High School Students Who Drank Five or More Drinks of Alcohol in a Row,* 1993-2017†

*Within a couple of hours on at least 1 day during the 30 days before the survey
†Decreased 1993-2017, no change 1993-2003, decreased 2003-2017 [Based on linear and quadratic trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05). Significant linear trends (if present) across all available years are described first followed by linear changes in each segment of significant quadratic trends (if present).]
Note: This graph contains weighted results.
Percentage of High School Students Who Ever Took Prescription Drugs Without a Doctor's Prescription,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax, one or more times during their life
†M > F; 11th > 9th, 11th > 10th, 12th > 9th, 12th > 10th, 12th > 11th; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Ever Took Prescription Drugs Without a Doctor's Prescription,* 2009-2017†

*Such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax, one or more times during their life
†Decreased 2009-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.

New Hampshire - YRBS, 2009-2017 - QN96
Percentage of High School Students Who Currently Took a Prescription Drug Without a Doctor's Prescription,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax, one or more times during the 30 days before the survey.
†M > F; 11th > 9th, 11th > 10th, 12th > 9th, 12th > 10th; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN97
Percentage of High School Students Who Currently Took a Prescription Drug Without a Doctor's Prescription,* 2011-2017†

*Such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax, one or more times during the 30 days before the survey
†Decreased 2011-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.

Percentage of High School Students Who Recall Hearing, Reading, or Seeing a Public Message About Avoiding Alcohol or Other Illegal Drugs,* by Sex,† Grade, and Race/Ethnicity, † 2017

*During the 12 months before the survey
†F > M; W > B, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN98
Percentage of High School Students Who Recall Hearing, Reading, or Seeing a Public Message About Avoiding Alcohol or Other Illegal Drugs,* 2015-2017†

*During the 12 months before the survey
†Decreased 2015-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Note: This graph contains weighted results.
Percentage of High School Students Who Drank a Can, Bottle, or Glass of a Sugar-Sweetened Beverage,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Such as sports drinks (for example, Gatorade or PowerAde), energy drinks (for example, Red Bull or Jolt), lemonade, sweetened tea or coffee drinks, flavored milk, Snapple, or Sunny Delight, not counting soda or pop or 100% fruit juice, one or more times per day during the 7 days before the survey
†M > F; 11th > 9th, 12th > 9th; H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN99
Percentage of High School Students Who Did Not Drink a Bottle or Glass of Plain Water,* by Sex,† Grade, and Race/Ethnicity,‡ 2017

*Counting tap, bottled, and unflavored sparkling water, during the 7 days before the survey
†M > F; B > W, H > W (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN100
Percentage of High School Students Who Reported That Some of Their Classroom Teachers Provide Short Physical Activity Breaks During Regular Class Time,* by Sex,† Grade,‡ and Race/Ethnicity, 2017

*Not counting their physical education teacher
†M > F; 9th > 12th (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN101
Percentage of High School Students Who Saw a Doctor or Nurse,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*For a check-up or physical exam when they were not sick or injured during the 12 months before the survey
†F > M; 9th > 12th, 10th > 12th, 11th > 12th; W > B, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN102
Percentage of High School Students Who Saw a Doctor or Nurse,* 2015-2017†

*For a check-up or physical exam when they were not sick or injured during the 12 months before the survey
†Decreased 2015-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Percentage of High School Students Who Reported That Either of Their Parents or Other Adults in Their Family Had Been in Jail or in Prison,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*During the 12 months before the survey
†F > M; 9th > 12th, 10th > 12th; B > W, H > B, H > W (Based on t-test analysis, p < 0.05.)

All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN103
Percentage of High School Students Who Reported That Either of Their Parents or Other Adults in Their Family Had Been in Jail or in Prison,* 2015-2017†

*During the 12 months before the survey
†No change 2015-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Percentage of High School Students Who Have Talked with at Least One of Their Parents or Guardians About the Dangers of Tobacco, Alcohol, or Drug Use,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*During the 12 months before the survey
†F > M; 10th > 11th, 10th > 12th; W > B, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Have Talked with at Least One of Their Parents or Guardians About the Dangers of Tobacco, Alcohol, or Drug Use,* 2013-2017†

*During the 12 months before the survey
†No change 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

New Hampshire - YRBS, 2017 - QN111
Percentage of High School Students Who Think People Are at Great Risk of Harming Themselves (Physically or in Other Ways) If They Have Five or More Drinks of Alcohol Once or Twice a Week,* 2013-2017†

*Beer, wine, or liquor
†No change 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Percentage of High School Students Who Think People Are at Great Risk of Harming Themselves (Physically or in Other Ways) If They Use Marijuana Once or Twice a Week, by Sex, * Grade, * and Race/Ethnicity, 2017

* F > M; 9th > 10th, 9th > 11th, 9th > 12th, 10th > 11th, 10th > 12th (Based on t-test analysis, p < 0.05.)

All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN112
Percentage of High School Students Who Think People Are at Great Risk of Harming Themselves (Physically or in Other Ways) If They Use Marijuana Once or Twice a Week, 2013-2017

*Decreased 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Percentage of High School Students Who Think People Are at Great Risk of Harming Themselves (Physically or in Other Ways) If They Take a Prescription Drug Without a Doctor's Prescription,* by Sex,† Grade, and Race/Ethnicity,‡ 2017

*Such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax
†F > M; W > B, W > H (Based on t-test analysis, p < 0.05.)
‡All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN113
Percentage of High School Students Who Think People Are at Great Risk of Harming Themselves (Physically or in Other Ways) If They Take a Prescription Drug Without a Doctor's Prescription,* 2011-2017†

*Such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax
†No change 2011-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Percentage of High School Students Who Reported That Their Friends Feel It Would Be Wrong or Very Wrong for Them to Smoke Tobacco, by Sex,* Grade,* and Race/Ethnicity,* 2017

F > M; 9th > 10th, 9th > 11th, 9th > 12th, 10th > 11th, 10th > 12th, 11th > 12th; W > H (Based on t-test analysis, p < 0.05.)

All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.
Percentage of High School Students Who Reported That Their Friends Feel It Would Be Wrong or Very Wrong for Them to Smoke Tobacco, 2013-2017*

Increased 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

New Hampshire - YRBS, 2013-2017 - QN114
Percentage of High School Students Who Reported That Their Friends Feel It Would Be Wrong or Very Wrong for Them to Have One or Two Drinks of an Alcoholic Beverage Nearly Every Day,* by Sex,† Grade,† and Race/Ethnicity, 2017

*Beer, wine, or liquor
†F > M; 9th > 10th, 9th > 11th, 9th > 12th, 10th > 12th, 11th > 12th (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Reported That Their Friends Feel It Would Be Wrong or Very Wrong for Them to Have One or Two Drinks of an Alcoholic Beverage Nearly Every Day,* 2013-2017†

*Beer, wine, or liquor
†Increased 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]
Percentage of High School Students Who Reported That Their Friends Feel It Would Be Wrong or Very Wrong for Them to Smoke Marijuana, by Sex,* Grade,* and Race/Ethnicity,* 2017

*F > M; 9th > 10th, 9th > 11th, 9th > 12th, 10th > 11th, 10th > 12th, 11th > 12th; W > H (Based on t-test analysis, p < 0.05.)

All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.

Note: This graph contains weighted results.
Percentage of High School Students Who Reported That Their Friends Feel It Would Be Wrong or Very Wrong for Them to Smoke Marijuana, 2013-2017

Decreased 2013-2017 \( [\text{Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade} \ (p < 0.05).] \)

Percentage of High School Students Who Reported That Their Friends Feel It Would Be Wrong or Very Wrong for Them to Take a Prescription Drug Without a Doctor's Prescription,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax
†F > M; 9th > 12th; W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.
Percentage of High School Students Who Reported That Their Friends Feel It Would Be Wrong or Very Wrong for Them to Take a Prescription Drug Without a Doctor’s Prescription, *2013-2017†

*Such as OxyContin, Percocet, Vicodin, codeine, Adderall, Ritalin, or Xanax
†Increased 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Percentage of High School Students Who Approve or Strongly Approve of Someone Their Age Having One or Two Drinks of Alcohol Nearly Every Day,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Beer, wine, or liquor
†M > F; 11th > 9th, 12th > 9th, 12th > 10th; B > W, H > W (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
Note: This graph contains weighted results.

New Hampshire - YRBS, 2017 - QN118
Percentage of High School Students Who Approve or Strongly Approve of Someone Their Age Having One or Two Drinks of Alcohol Nearly Every Day,* 2013-2017†

*Beer, wine, or liquor
†No change 2013-2017 [Based on linear trend analyses using logistic regression models controlling for sex, race/ethnicity, and grade (p < 0.05).]

Percentage of High School Students Who Reported That Their Parents Feel It Would Be Wrong or Very Wrong for Them to Have One or Two Drinks of an Alcoholic Beverage Nearly Every Day,* by Sex,† Grade,† and Race/Ethnicity,† 2017

*Beer, wine or liquor
†F > M; 9th > 11th, 9th > 12th, 10th > 12th, 11th > 12th; W > B, W > H (Based on t-test analysis, p < 0.05.)
All Hispanic students are included in the Hispanic category. All other races are non-Hispanic.
