Compliance & Improvement Monitoring Visit
Conducted on November 7, 9 & 10, 2017
Report Date: December 29, 2017

Overview of the Special Education Compliance & Improvement Monitoring Process

New Hampshire has a responsibility, under federal law, to have a system of general supervision that monitors the implementation of the Individuals with Disabilities Education Act (IDEA) by school districts. The general supervision system is accountable for enforcing IDEA and the New Hampshire Rules for the Education of Children with Disabilities and for ensuring continuous improvement. As stated in section 616 of 2004 amendments to the IDEA, "The primary focus of Federal and State monitoring activities described in paragraph (1) shall be on -

- (A) Improving educational results and functional outcomes for all children with disabilities; and
- (B) Ensuring that States meet the program requirements under this part, with a particular emphasis on those requirements that are most closely related to improving educational results for children with disabilities."

There are eight components that comprise NH's general supervision system. It is important to note that although the components are separate, the components connect, interact and articulate requirements to form a comprehensive system. The general supervision system for NH has the following components:

- State Performance Plan (SPP)
- Policies, Procedures, and Effective Implementation
- Data on Processes and Results
- Targeted Technical Assistance and Professional Development
- Effective Dispute Resolution
- Integrated Monitoring Activities
- Improvement , Correction, Incentives and Sanctions
- Fiscal Management

The special education compliance & improvement monitoring review is one method that the Bureau of Special Education utilizes to implement the general supervision system. The special education compliance & monitoring review is comprised of:

- Policies, Procedures, and Effective Implementation
- District Special Education Forms and Effective Implementation
- Special Education Personnel
- Program Visits
- Identification of Problematic Practices
- Monitoring of Special Education Process
- Improvement, Correction, Assistance, and Enforcement

The intent of the special education compliance & improvement monitoring review is to:

- Improve student outcomes for students with IEPs
- Determine compliance

- Ensure districts understand and are implementing special education requirements in accordance with the *New Hampshire Rules for Education of Children with Disabilities*
- Improve special education policies, procedures and practices

The Bureau of Special Education followed a standard process to select districts to participate in the special education compliance & improvement monitoring review. Each district was sorted into one of six cohort groups based on size using the current October 1st fall enrollment. The Bureau of Special Education utilized a multi-data approach which aligns with the Office of Special Education Programs (OSEP) differentiated monitoring approach to determine the district in each cohort group with the highest need based on the District Determinations; the State Performance Plan (SPP) Indicators: (4B) Suspension/Expulsion, (5A) Education Environments, (6A) Preschool Environments, (11) Child Find, and (12) Early Childhood Transition; and state special education complaints.

Once a district was selected, the Bureau of Special Education contacted the district to discuss the special education compliance & improvement monitoring review with the school administration. The Windham School District was selected through this process. The Windham School District is comprised of five schools: Windham Preschool, Golden Brook Elementary School with a grade span of K-2, Windham Center School with a grade span of 3-5, Windham Middle School with a grade span of 6-8, and Windham High School with a grade span of 9-12.

The Bureau of Special Education also provided targeted professional development regarding the special education compliance review process and completion of the self-assessment data collection form. The district was provided with a list of 44 students with disabilities representative of the schools based on grade level, disability, gender, program, and case manager. At the time of the selection of students, the information entered into NHSEIS indicated that there were four students enrolled in charter schools and two students placed by the district in approved out-of-state special education programs for the Windham School District. During the onsite visit, the monitoring team selected a total of 34 of the 44 student files to review.

The district fall enrollment for October 1, 2015 showed that there was a total of 2890 students enrolled in the Windham School District which had a grade span of preschool through twelfth grade. The district data profiles for October 1, 2015 indicated that there were 443 students in the Windham School District who were identified with disabilities.

The monitoring visit conducted on November 7, 9 & 10, 2016 consisted of New Hampshire Department of Education (NHDOE) team members and two visiting special education administrators verifying district-identified evidence on the self-assessment data collection form. While the district completed the entire self-assessment, each file was reviewed, covering either Parts 1 & 3 (encompassing questions 1-2 and 33-65) or covering Parts 2 & 4 (encompassing questions 3-32 and 66-71).

The district was encouraged to invite their special education staff as well as related service providers and regular education staff, if appropriate, to attend the review. For the staff who attended the review, this provided another targeted professional development opportunity. Staff members were provided the opportunity to learn about implementing IDEA and the *New Hampshire Rules for the Education of Children with Disabilities* and to engage in a professional discussion of best practices for ensuring improved outcomes for students with disabilities.

The New Hampshire Department of Education, Bureau of Special Education review members for this compliance & improvement monitoring review included Education Consultants: Helene Anzalone, Joanne DeBello and Mary Lane. The special education administrators participating in this compliance improvement monitoring review were Chuck DiCecca, Director of Special Education from Inter-Lakes Cooperative School District and Ryan Marsh, Director of Pupil Personnel Services from Moultonborough School District.

Policies, Procedures, and Effective Implementation

Each district must have policies, procedures, and effective implementation of practices that are aligned and support the implementation of IDEA and the *New Hampshire Rules for the Education of Children with Disabilities*. As part of the special education compliance & improvement monitoring review, the monitoring team reviewed the district's policies and procedures manual for compliance.

In addition, the Bureau of Special of Education cross checked the Annual Request for Federal Special Education Funds FY 16, IDEA Part B Section 611 Assurances, and District Policies to Support Assurance Standards with the district's policy and procedures manual to ensure that document name, date adopted, and pages were valid. Districts are required to submit assurance statements with their local application for IDEA funds.

The monitoring team reviewed the district's policies and procedures manual for the following components.

- Child Find pursuant to 34 CFR 300.111; Ed 1105; Ed 1126.01(b)(1)
- Confidentiality of Information pursuant to 34 CFR 300.610 – 300.627; Ed 1119; Ed 1126.01(b)(2)
- Special Education Facilities, Personnel and Services pursuant to Ed 1126.01(b)(3)
- Personnel Development pursuant to 34 CFR 300.207; Ed 1126.01(b)(4)
- Parent Involvement pursuant to 34 CFR 300.501(b); 34 CFR 300.501(c); 34 CFR 300.327; Ed 1126.01(b)(5)
- Public Participation pursuant to 34 CFR 300.212; Ed 1126.01(b)(6)
- Procedural Safeguards pursuant to 34 CFR 300.500; Ed 1120
- Referral and Disposition of Referral pursuant to 34 CFR 300.300; 34 CFR 300.301(b); 34 CFR 300.305; 34 CFR 300.124; Ed 1106
- Evaluation pursuant to 34 CFR 300.301 – 300.311; Ed 1107; Ed 1107.02

- Determination of Eligibility for Special Education pursuant to 34 CFR 300.306; Ed 1108
- The Individualized Education Program pursuant to 34 CFR 300.320; 34 CFR 300.320(b); 34 CFR 300.43; Ed 1109
- Placement of Children with Disabilities pursuant to 34 CFR 300.114 – 300.117; Ed 1111
- State Department of Education Monitoring of Educational Services and Programs for Children with Disabilities pursuant to Ed 1126.01(a)
- Coordination with other Local and State Agencies pursuant to Ed 1126.01(b)(10)
- Children with Disabilities Enrolled in Private Schools by Parents pursuant to 34 CFR 300.131 – 300.132; Ed 1126.01(b)(11)
- Instructional Materials in Accessible Formats pursuant to 34 CFR 300.172; Ed 1126.01(b)(12)
- Disciplinary Procedures for Children with Disabilities pursuant to 34 CFR 300.530 – 300.536; Ed 1124
- Dispute Resolution
 - Complaint Procedures pursuant to 34 CFR 300.153; Ed 1121
 - Alternative Dispute Resolution pursuant to 34 CFR 300.506; Ed 1122
 - Administrative Due Process Hearing Procedures pursuant to 34 CFR 300.507 – 300.518; Ed 1123
- Local Education Agency Request for Special Education Funds pursuant to Ed 1126.01

Based on the review of the Windham School District’s policies and procedures manual, the monitoring team determined there were **no findings of noncompliance**.

District Special Education Forms and Effective Implementation

As part of the review of The Windham School District’s forms implementing the special education process, the Bureau of Special Education also looked for evidence that the policies and procedures were effectively being implemented. The monitoring team reviewed the following district forms to ensure the implementation of the special education process:

- Record of Access pursuant to 34 CFR 300.614; Ed 1119.02(a)
- Notification of Special Education Team Meeting pursuant to 34 CFR 300.322; Ed 1103.02(a)
- Parental Permission to Waive Time Limits pursuant to Ed 1103.02(b)
- Written Prior Notice pursuant to 34 CFR 300.503; Ed 1120.03(a)(b)
- Determining the Existence of a Specific Learning Disability pursuant to 34 CFR 300.309 & 300.311; Ed 1107.01(a)
- Evaluation Report pursuant to Ed 1107.05(a)
- Procedural Safeguard Notice pursuant to 34 CFR 300.504; Ed 1120.03(b)

- Age of Majority pursuant to 34 CFR 300.320(c); Ed 1120.01(b)
- Annual Notification when Proposing Accessing Public and Private Insurance pursuant to 34 CFR 300.154(d)(2)(v); Ed 1120.08(a)

Based on the review of the Windham School District’s special education forms, the NHDOE determined that there were **no findings of noncompliance**.

Special Education Personnel

The Bureau of Special Education reviewed the Windham School District special education staff certifications using the New Hampshire Educator Information System. The review process was for special education staff employed during 2015-2016 school year.

The data for Windham School District was generated on December 1, 2016. Each special education staff member’s endorsement was compared to the subject/assignment. This process was used for special educators who hold Education Intern License 4 (INT4), Beginning Educator Certification (BEC) and Experienced Educator Certification (EEC). If the endorsement was appropriate to the subject/ assignment then the renewal date of the endorsement was verified to ensure that the endorsement was current.

If there was a discrepancy between endorsement and the subject/assignment, the district was given an opportunity to verify the data. If the discrepancy could not be resolved a finding of noncompliance was made based on Personnel Standards pursuant to Ed 1113.12, 34 CFR 300.18, and 34 CFR 300.156.

Based on the review of the special education staff certifications, the monitoring team determined there were **1 finding of noncompliance**.

The district was notified of the concerns listed above for each of the schools listed. Staff specific information was shared with the district.

Program Visits

The purpose of the program visits has been to observe the district's full range of opportunities for the child with a disability that cannot be met in a regular education setting. Per Ed 1111, districts shall ensure that children with disabilities are educated with children who do not have disabilities to the maximum extent appropriate and that removal from the regular educational environment occurs only when the nature or severity of the disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily. School districts shall comply with the requirements of 34 CFR 300.115, relative to continuum of alternative placements.

Monitoring of Special Education Process

Districts are responsible for implementing the special education process in accordance with IDEA and the *New Hampshire Rules for the Education of Children with Disabilities*. The self-assessment data collection form highlights the district's understanding of the requirements of IDEA and the *New Hampshire Rules for the Education of Children with Disabilities* and was reviewed during the monitoring visit. Each area of compliance on the self-assessment data collection form clearly outlines whether the compliance is either a requirement of both IDEA and the *New Hampshire Rules for the Education of Children with Disabilities* or a requirement of solely the *New Hampshire Rules for the Education of Children with Disabilities*. During the monitoring visit, the monitoring team verified the evidence of compliance based on the review of the student file, using the district's self-assessment as a resource.

Based on this review, the Bureau of Special Education identified findings of noncompliance with IDEA and the *New Hampshire Rules for the Education of Children with Disabilities*. The findings include the compliance citation, the area of compliance, the specific component of the regulation, and the required corrective actions, which include timelines for demonstrating correction of noncompliance. Student specific information is not included in the report but will be provided to the district's Special Education Director.

There are two main components to the corrective actions entitled, "*Corrective Action of Individual Instance of Noncompliance*" and "*Corrective Action Regarding the Implementation of the Regulations*". The first component, "corrective action of individual instance of noncompliance," is for any noncompliance concerning a child-specific requirement. There must be evidence that the district has corrected each individual case of noncompliance, unless the child is no longer within the jurisdiction of the district. These areas must be corrected as soon as possible with state timelines given in the report for each area. The NHDOE will return to the district, typically within 3 months of the date of the report, to verify compliance for each individual instance identified in the report. The second component, "corrective action regarding the implementation of the regulations" would typically involve the district's providing professional development training to appropriate

staff with regards to areas found to be in noncompliance. The NHDOE will review updated data collected after the identification of noncompliance to demonstrate that the district is correctly implementing the specific requirement. This involves a follow-up on-site review of new student files, selected typically within one year of the original on-site compliance & improvement monitoring.

Overview of the Student Specific Findings of Noncompliance

The chart below identifies the area of compliance based on student files that were reviewed by the compliance & improvement monitoring team during the onsite visit. The chart is broken down into the **compliance citations** and **area of compliance**. The compliance citations are based on the *CFR* found in the federal regulations of IDEA and the *Ed* found in the administrative rules of the New Hampshire Rules for the Education of Children with Disabilities. The chart aligns the regulatory components to the numbered questions in the self-assessment. Regulatory components and self-assessment numbers are bolded in instances where noncompliance was noted by the compliance & improvement monitoring team.

The **review status** identifies the **number of files reviewed** for the self-assessment question as well as the number of files that were found to be in compliance. For example “1 out of 3 files demonstrated a record of parties that have obtained access to the education records collected or used under Part B of the Act. For student files A & B, there was insufficient evidence demonstrating compliance with this requirement ” This means that 3 files were reviewed and 1 file was found to be in compliance and students A & B were found to be noncompliant.

In cases where there was a finding of noncompliance for a particular student, the chart identifies the **First Stage Corrective Action of Student Specific Instance(s) of Noncompliance**. In the case of an individual instance of noncompliance, the corrective action would generally involve the IEP team convening to resolve the finding of noncompliance. Timelines for these corrective actions are also noted. For the First Stage Corrective Actions, the NHDOE will return to the district within 3 months following the district receiving written notification of noncompliance (the report) to review all student files in which there were findings of noncompliance in order to verify compliance with the corrective action stated in the report.

In cases where there was a finding of noncompliance for a particular student, the next section of the chart identifies the **First Stage Corrective Action Regarding the Implementation of the Regulation**. This section will also include a reference to a student file that was used as evidence to support the noncompliance of the regulation, if applicable. This section informs the district of any practices or procedures which need to be corrected as well as trainings for staff to inform them of the corrections as a result of the findings of noncompliance. The required corrective action by the district and a timeline for the corrective action is also provided.

In cases where there was a finding of noncompliance for a particular student, the final section of the chart identifies the **Second Stage Corrective Action Regarding the Implementation of the Regulation**. Identified in this section will be the number of new student files that will be selected at each school to demonstrate correct implementation of the regulations for the section of the self-assessment in which noncompliance was found. For the Second Stage Corrective Actions, the NHDOE will verify compliance through a subsequent on-site review of the new files within a year from the date of the report. **The total number of student files selected for the Second Stage Corrective Action Regarding the Implementation of the Regulation will not exceed the original number of files reviewed at each school.**
