Footnotes:

(1) These are students that exited high school during the 16-17 school year but subsequently received a high school equivalency certificate from the State of NH as a result of testing at one of the NH high school equivalency testing centers. Only students that voluntarily granted access to their high school transcripts have been counted on this high school report. Any student who did not grant access to their transcripts or who received a high school equivalency certificate from another state could not be verified and therefore has been counted as "Dropped Out."

(2) These are early exit students who have not earned a high school equivalency certificate but have enrolled in at least one college course. National Student Clearinghouse data, which contains enrollment verification for 96% of US two and four year college students, was used to identify enrollment. Students who have earned a high school equivalency certificate and have entered college without graduating are only counted once – under high school equivalency. They are not double counted.

<i>See footnote for more information</i>		<u>Early Exit Non-Graduates</u>				<u>All Early Exit Non-Graduates</u>		<u>Dropouts Only</u>		
<u>District</u>	<u>School</u>	Fall 2016 Enrollment	Earned HiSet (1)	Enrolled In College (2)	Dropped Out (3)	Total	Annual Early Exit Percentage (4)	4 Year Cumulative Rate (4)	Annual Dropout Percentage (5)	4 Year Cumulative Rate (5)
(3) Dropouts are early exit, non-graduates that have not been identified as either receiving a high school equivalency certificate or enrolling in college. If a student has previously ever dropped out, they are excluded from the count to avoid double counting.										
(4) The total number of early exit, non-graduates has been used to calculate annual and cumulative percentages. These are comparable to prior years "dropout" rates. The rate formulas are explained below.										
(5) The annual and cumulative percentages have been calculated using only the "Dropped Out" sub-category count. The rate formulas are explained below.										
(6) In the past, different enrollment adjustments were used for high migration Charter schools. Starting with 2014 - 2015 school year, October 1st enrollment is used for all schools.										
Definition of an early exiter: For 2016-2017, any student who completed the 2015-2016 school year but did not return to school in September 2016, or who left high school during the 2016-2017 school year and did not return to high school by October 1, 2017. The definition does not include students who were home schooled, suspended, temporarily expelled, truants, incarcerated; or who completed a high school program (diploma or certificate), transferred to another high school, or died.										
Definition of a dropout: For 2016-2017, any early exiter who has not received a high school equivalency certificate or been enrolled in college prior to the compilation of this report.										
Annual Early Exit Rate = Early Exit count, divided by the October 1, 2016 enrollment plus Early Exits that left before October 1st. This rate is not applicable to Charter Schools due to high migration.										
Annual Dropout Rate = Dropouts divided by the October 1, 2016 enrollment plus students that dropped out before October 1st. This rate is not applicable to Charter Schools due to high migration.										
Cumulative Rates = $1 - (1 - \text{annual rate})^4$. This formula applies the annual rate to a progressively declining base population. The cumulative rate represents the percentage of current students who will early exit or drop out before reaching graduation if the annual rate does not change. This rate is not applicable to Charter Schools due to high migration.
