

The End-of-Year Academic Performance (EOY Academic) Submission provides academic information for students who were enrolled in a school/district during the prior year. It includes students who were enrolled for one day or for the entire year.

The data dictionary found at the i4see home page www.ed.state.nh.us/i4see is the source to identify the various data submissions, such as the EOY Academic submission. The data dictionary will provide the description of the data elements. All submissions should be comma separated variable files (.csv) files.

The following pages help to clarify the data required for the EOY Academic submission. Examples of the data are provided with a description of the fields that may need clarification. These are strictly examples.

Scenario 1: A high school student who is receiving Title I services also took the Calculus AP exam.
