

AP[®] Credit Policies

New Hampshire Public Four-Year Colleges and Universities

Note: This document represents a snapshot of data available to the College Board as of March 2017.

Advanced Placement Program[®] (AP[®]) courses prepare students for success in postsecondary education and provide opportunities for them to earn college credit. AP Exam scores range from 1–5, with scores of 3–5 correlating to college course grades of C to A. Research shows that AP students who earn an exam score of 3 or higher generally perform as well or better in subsequent course work as compared to non-AP college students who completed the introductory course at a college or university.

Given the consistent findings that students who earn minimum AP Exam scores of 3 demonstrate college success, the College Board recommends that colleges and universities award credit for scores of 3 on any AP Exam.

Overview of Public University and College AP Credit & Placement Policies

As indicated on the following pages, AP Exam credit and placement policies vary by institution in New Hampshire. New Hampshire public four-year universities receiving the highest volume of AP scores last year:

- University of New Hampshire
- Plymouth State University
- Keene State University
- University of New Hampshire, Manchester

Of these institutions, none award credit for all AP Exams.

Of the New Hampshire public four-year institutions the College Board has identified,¹ four award credit for AP Exam scores of 3+ for at least one STEM-related AP subject area.

For more information, please contact

Jason Langdon, Executive Director, AP Higher Education Outreach, at **512-721-1807** or **jlangdon@collegeboard.org**.

¹The AP credit policy data cited in this report was retrieved from the College Board's AP Credit Policy Survey database. The information was updated as of 3/1/2017 based on data collected from each institution's website. It was also verified by an institutional credit policy contact, where possible. Institutional data is included in this report based on availability: Some institutions neither make their credit policy details publicly available, nor provide this data directly to the College Board as part of the annual survey.

Footnote

The numbers displayed in this chart indicate the minimum AP Exam score required for credit at each institution. Empty cells indicate that a policy was not reported to the College Board and could not be located on the campus's website, suggesting that the campus may not have a credit policy for the exam. This data represents the best available information at the time of collection, but because policies change over time, they may not always be current. Please consult institutions directly for the most current policies. **This document represents a snapshot of data available to the College Board as of 3/1/2017.** For more information on credit-granting recommendations, please refer to aphighered.collegeboard.org/
