Education Statistics System (ESS) Upgrade

RFP 2021-064 Education Statistics System (ESS) Upgrade

Section 1 – Overview and Schedule

A. Executive Summary

The Department of Education (DOE) has identified areas of improvement for its Education Statistics System (ESS). The application has become increasingly difficult to support over time because the surveys within the application have become increasingly complex and do not share a common code base. As a result, the DOE is having trouble getting the surveys out on time and working correctly. The DOE is looking for a vendor to upgrade the ESS application so the surveys share a common code base and the maintenance (e.g. creating new surveys, editing existing surveys, security) and scheduling are configurable by the system administrators.

B. Schedule

The following table provides a Schedule of Events for this RFP through contract finalization and approval. The Agency reserves the right to amend this Schedule at its sole discretion and at any time through a published Addendum.

Section 2 - Description of Agency/Program Issuing the Request for Proposals

The Bureau of Educational Statistics provides support for the identification, collection, management, and analysis of educational data to ensure that information is accurate, accessible, and supports department and stakeholder goals. The data collected needs to be in compliance with:

The Bureau supports program areas within the Department of Education, outside researchers, and the New Hampshire Legislature by providing data analytics to facilitate research, decision making, and improve educational outcomes. Over the past decade, the DOE’s data needs have shifted dramatically from merely fulfilling various federal and state legislative mandates for reporting to driving the decision-making process at the individual, family, school, state, and federal levels. Today the need for Education Statistics System that is self-service, configurable, and responsive to changing education data needs is crucial to fulfilling the Bureau’s mission.
Section 3 – Proposed Scope of Work

- Analyze the existing ESS application’s architecture, functionality, and administrative capabilities to understand current strengths and weaknesses.
- Create a new ESS application that is web based and has the following abilities:
  - Design the application so there can be multiple administrators.
    - The Lead Admin would have overall responsibility for the application.
    - Each bureau within the DOE will have a Bureau Admin that is responsible for managing their surveys. The Bureau Admins will be able to add to/modify the pool of questions and other configuration settings (e.g. user access) for their surveys.
    - Bureau Admins would manage one or more surveys with the Lead Admin having full rights to all surveys.
  - Provide a bank of questions that the Lead and Bureau Admins can leverage to create/modify the survey.
  - Provide a band of validations so as to not duplicate one validation in several places
  - Survey functionality provided should include:
    - The ability for the Lead and Bureau Admins to:
      - Upload/import questions
      - Modify questions once they have been added to a survey
    - Ability to save, submit and certify (if needed)
    - Skip logic for questions
    - Prepopulate summary data in surveys
    - Ability for users to run reports to pull the data from prior years by links within the survey
  - Link the survey mailing lists to the mailing lists (e.g. superintendent list) in the DOE’s common database (this is where the DOE’s master data is located).
  - Provide the Lead and Bureau Admins with the ability to create validations on the survey fields
    - Dynamic validations (e.g. decision trees, control totals based on inputs, etc...)
    - Ability to have fields on survey that summarize data inputs (e.g. user enters number of staff per grade and a total row in the survey is then displayed automatically).
    - Data type
    - Comparisons to prior surveys (could be link)
    - If yes, than a response should be > 0
    - If answered x in one survey, x is brought into a new survey where additional details are needed and need to add up to the original value.
  - Provide the Lead and Bureau Admins with scheduling functionality:
    - Admins can schedule the surveys
    - Admins can create and schedule the reminder messages
  - Security
    - Leverage the existing application security.
    - Provide the Lead and Bureau Admins with the ability to maintain the security:
      - Role based
      - Single Sign on (SSO)
  - Provide logging capabilities (i.e. who, what, when, where). We want to know what was changed along with who made the change and when, and to which survey.
- Deploy the new ESS application.
  - The vendor to assist with transition to the new ESS application
  - The vendor to work with DOE staff to re-create existing the surveys in the new application.
  - The vendor to document all system changes to support end-user knowledge.
- Training - Prepare administrators/users adequately to use the new system from the day of deployment, including maximum knowledge transfer to allow the administrators to conduct its own training in the future.
Warranty Period - The Warranty Period will initially commence upon the State issuance of a Letter of Acceptance for UAT and will continue for ninety (90) days. If within the last thirty (30) calendar days of the Warranty Period, the System Software fails to operate as specified, the Warranty Period will cease, the Vendor will correct the Deficiency, and a thirty (30) calendar day Warranty Period will begin. Any further Deficiencies with the Software must be corrected and run fault free for thirty (30) days.

Technical Requirements for Key Staff – Software development proficiency in SQL, C#/.Net Core, SSIS (SQL Server Integration Services), SQL Server Reporting Services (SSRS), and Tableau.

Other requirements.
- Source control repository used throughout the project to store and version code.

The Agency will select a Proposer based upon the criteria and standards contained in this RFP and from applying the weighting in this section. Oral interviews and reference checks, to the extent they are utilized by the Agency, will be used to refine and finalize scores.

B. Planned Evaluations

The Agency plans to use the following process:

1. Initial screening to ensure that the Proposals are in compliance with submission requirements;
2. Preliminary evaluation of the Proposals;
3. Oral Interviews and Product Demonstrations (if necessary);
4. Final Evaluation of Qualifications and Experience and scoring;
5. Select the highest scoring Proposer (s) and begin contract negotiation.

C. Initial Screening

The Agency will conduct an initial screening step to verify Proposer compliance with the qualifications and experience submission requirements set forth in the RFP and the minimum content set forth in Section 5 of this RFP. The Agency may waive or offer a limited opportunity to cure immaterial deviations from the RFP requirements if it is determined to be in the best interest of the State.

D. Preliminary Scoring of Proposals

The Agency will establish an evaluation team to initially score the proposals. This evaluation team will review the proposals and give a preliminary score under the guidelines set forth in Section 6. Proposers are advised that this is not a low bid award and that the scoring of the price proposal will be combined with the scoring of the qualifications and experience proposal to determine the overall highest scoring Proposer. Should a Proposer fail to achieve 60 Points in the preliminary scoring, it will receive no further consideration from the evaluation team.

Note: The following formula will be used to assign points for price:

- Proposer’s Price Score = (Lowest Proposed Price / Proposer’s Proposed Price) x Number of Points for Score

E. Oral Interviews

If the Agency determines that it is appropriate, proposers may be invited to oral interviews. The Agency retains the sole discretion to determine whether to conduct oral interviews, with which proposers; and the number of interviews. Proposers are advised that the Agency may decide to conduct interviews with less than all responsive proposers.

The purpose of oral interviews is to clarify and expound upon information provided in the written Proposals. Proposers are prohibited from altering the basic substance of their Proposals during the oral interviews. Information gained from oral interviews and product demonstrations will be used to refine qualifications and experience review scores assigned from the initial review of the Proposals.

F. Final Scoring of Proposals

Following Oral Interviews, Reference Checks (if appropriate) and/or review of written clarifications of proposals requested by the Agency, the evaluation team will determine a final score for each Proposal.

G. No Best and Final Offer

The Proposal should be submitted initially on the most favorable terms which the proposer can offer. There will be no best and final offer procedure. The Proposer should be prepared to accept this RFP for
incorporation into a contract resulting from this RFP. Contract negotiations may incorporate some or all of the Proposal.

H. Final Selection
The Agency will conduct a final selection based on the final evaluation of the proposals and begin contract negotiations with the selected Proposer(s).

D. Confidentiality of a Proposal
Unless necessary for the approval of a contract, the substance of a proposal must remain confidential until the Effective Date of any Contract resulting from this RFP. A Proposer’s disclosure or distribution of Proposals other than to the Agency will be grounds for disqualification.

E. Public Disclosure
Pursuant to RSA 21-G: 37, all responses to this RFP shall be considered confidential until the award of a contract. At the time of receipt of proposals, the Agency will post the number of responses received with no further information. Marking of the entire Proposal or entire sections of the Proposal (e.g. pricing) as confidential will neither be accepted nor honored. Notwithstanding any provision of this RFP to the contrary, Proposer pricing will be subject to disclosure upon approval of the contract. The Agency will endeavor to maintain the confidentiality of portions of the Proposal that are clearly and properly marked confidential.

If a request is made to the Agency to view portions of a Proposal that the Proposer has properly and clearly marked confidential, the Agency will notify the Proposer of the request and of the date the Agency plans to release the records. By submitting a Proposal, Proposers agree that unless the Proposer obtains a court order, at its sole expense, enjoining the release of the requested information, the Agency may release the requested information on the date specified in the Agency’s notice without any liability to the Proposers.

F. Non-Commitment
Notwithstanding any other provision of this RFP, this RFP does not commit the Agency to award a Contract. The Agency reserves the right, at its sole discretion, to reject any and all Proposals, or any portions thereof, at any time; to cancel this RFP; and to solicit new Proposals under a new acquisition process.

The Agency will review requested exceptions and accept, reject or note that it is open to negotiation of the proposed exception at its sole discretion. If the Agency accepts a Proposer’s exception the Agency will, at the conclusion of the inquiry period, provide notice to all potential proposers of the exceptions which have been accepted and indicate that exception is available to all potential proposers.
