

## Dynamic Learning Maps (DLM) Student Registration

Students with the most significant cognitive disabilities participate in the Dynamic Learning Maps (DLM) alternate assessment, as indicated in their active individualized education program (IEP). The student’s IEP team makes the determination whether a student with disabilities will participate in the general statewide assessment with or without accommodations, or in the alternate assessment.

Annually, the special education director/coordinator provides a list of eligible DLM students to the i4see coordinator. The i4see coordinator will then follow the steps below to register eligible students for the DLM. Students who are eligible for the alternate assessment **do not** take the SAT or NH SAS general assessment.

- **To register students for the DLM, select “All” in the Assessment Roster:**

- Next, find student by using the search bar to enter SASID or click on a column heading to sort and find SASID.

- **Click the (+)** to identify each student taking the DLM alternate assessment.
- If you mistakenly click this box and need to remove a student from DLM, please submit a help ticket to the [NHDOE Help Desk](#).

A yellow arrow points to the '+' icon in the DLM column of the first row.

- By clicking the (+), the student will be registered for the DLM. Student data will then be transferred overnight from i4see to Kite Educator Portal. And, students will appear in the DLM assessment roster the next day.
