Foot Notes

(1) October 1, 2019 enrollment plus Early Exits that left before October 1st.

(2) These are students that exited high school during the 19-20 school year but subsequently received a high school equivalency certificate from the State of NH as a result of testing at one of the NH high school equivalency testing centers. Only students that have volunt access to their high school transcripts have been counted on this high school report. Any student who did not grant access to their transcripts or who received a high school equivalency certificate from another state could not be verified and therefore has been counted as ' Out.'

(3) These are early exit students who have not earned a high school equivalency certificate but have enrolled in at least one college course. National Student Clearinghouse data, which contains enrollment verification for 96% of US two and four year college students, was identify enrollment. Students who have earned a high school equivalency certificate and have entered college without graduating are only counted once – under high school equivalency. They are not double counted under both categories.

(4) Dropouts are early exit, non-graduates that have not been identified as either receiving a high school equivalency certificate or enrolling in college. These are students reported by their schools as dropouts. Students under the age of 18 are not considered a dropout u have done their due diligence to locate the student. Previously, repeat dropouts were not reported again. As of 2019-2020, the guidance has changed to include repeat dropouts in the count and therefore they are included in this count.

(5) The total number of students under the age of 18 and reported as a W9 (truant).

Definition of an early exiter: For 2019-2020, any student who completed the 2018-2019 school year but did not return to school in September 2019, or who left high school during the 2019-2020 school year and did not return to high school by October 1, 2020. The definiti include students who were home schooled, suspended, temporarily expelled, truants, incarcerated; or who completed a high school program (diploma or certificate), transferred to another high school, or died.

Definition of a dropout: For 2019-2020, any early exiter who has not received a high school equivalency certificate or been enrolled in college or reported as truant (W9) prior to the compilation of this report.

Annual Early Exit Rate = Early Exit count, divided by the October 1, 2019 enrollment plus Early Exits that left before October 1st.

Annual Dropout Rate = Dropouts divided by the October 1, 2019 enrollment plus students that dropped out before October 1st.

Cumulative Rates = $1 - (1 - \text{annual rate})^4$. This formula applies the annual rate to a progressively declining base population. The cumulative rate represents the percentage of current students who will early exit or drop out before reaching graduation if the annual rate do change. This rate is not applicable to Charter Schools due to high migration.

(6) The total number of early exit, non-graduates has been used to calculate annual and cumulative percentages. These are comparable to prior years "dropout" rates. The rate formulas are explained above.

(7) The annual and cumulative percentages have been calculated using only the "Dropped Out" sub-category count. The rate formulas are explained above.

In the past, different enrollment adjustments were used for high migration Charter schools. Starting with 2014 - 2015 school year, October 1st enrollment is used for all schools.
