- a. Students shall be provided courses in a classroom setting that will enable them to demonstrate achievement of graduation competencies. Students shall not be required to take these courses in order to demonstrate achievement of graduation competencies but may engage in distance education programs to demonstrate achievement. Career program level courses, not available to all students, shall not be counted toward the high school requirement, including career level courses offered at a regional career and technical center that is co-located with the high school. Graduation competencies acquired and demonstrated through career courses may be counted toward a student's requirements for a high school diploma under Ed 306.27(t);

(4) Students may earn certificates of completion or equivalency diplomas, but these shall not be equal to a regular high school diploma.

(t) The district shall provide learning opportunities that enable students to achieve the district's graduation competencies. Graduation competencies shall align with the skills, knowledge, and work-study practices required for success in college and careers.

(u) Students shall demonstrate competencies contained in at least the equivalent of 20 credits. Students shall engage in learning concerning competencies in the areas of English/language arts and mathematics for every year they are in high school until graduation, regardless if English/language arts or mathematics graduation competencies have been achieved. Such engagement may occur through integration of these graduation competencies in courses focused on content areas other than English or mathematics as long as English or mathematics competencies are clear expectations of the course. Such engagement shall support students to be college and career ready in mathematics and English/language arts. Nothing contained in this section shall preclude a school or district from offering courses and other learning opportunities in addition to the minimum outlined in Ed 306.
