

NH ESEA TITLE PROGRAMS

DEVELOPING ACTIVITIES IN THE GRANTS MANAGEMENT SYSTEM

1

THE PRIORITY SECTION

In the Priority Section, the focus is on the need* for supplemental support within an allowable program area. The narrative should briefly answer the following questions:

- What is the specific need for supplemental support?
- Which school in your LEA or group of students/teachers have this need?
- How did the Stakeholder Team identify the need?
- Why was that need prioritized by the Stakeholder Team?

*Needs should be based on evaluations/assessments.

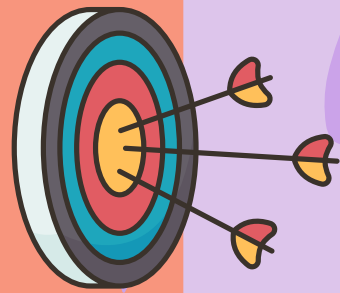

THE OUTCOME SECTION

In the Outcome Section, the focus is on what the expected objectives of the program will be. The narrative should briefly answer the following questions:

- What do you expect will be the results of your program evaluation?
- What do you expect will increase or decrease as a result of the activity, and by how much?
- How do you expect the activity will provide the supplemental supports that were identified and prioritized in the Priority Section?

2

3

THE ACTIVITY SECTION

In the Activity Section, the focus is on a program, a defined action, or set of actions, that will provide the students/teachers with supplemental support. The narrative should briefly answer the following questions:

- What is the program that will provide supplemental support for their learning?
- When, where, and for how long will this program operate?
- Who will lead or implement the program?
- What are the expectations for participating teachers, students, or other personnel?
- What supplies, equipment, and/or personnel will be needed to make the program run effectively?
- Why are those supplies, equipment, and/or personnel necessary for the success of the program?
- What evidence* do you have that suggests this program is effective?

*Must be evidence-based; including a citation and sentence explaining why the that evidence is applicable.

THE PERFORMANCE MEASUREMENT SECTION

In Performance Measurement Section, the focus is on evaluating the activity to determine if the activity produced the desired outcomes. The narrative should briefly answer the following questions:

- What data will be collected to measure success?
- What data collection tools or instruments will be used to collect that data?
- What are the timelines and periods for data collection?
- How will the data be analyzed in order to determine success?
