Assessment Requirements

Each year, New Hampshire public schools and public charter schools are required by state law and federal accountability laws to assess students.

Eligibility for Participation in the DLM Alternate Assessment

- Annually, IEP teams should use the [Accommodations & Alternate Assessment Decision Making Worksheet for Participation of Students with Disabilities in Statewide Assessments](#) to determine if an alternate assessment is appropriate.
- DLM is the alternate assessment for severely cognitive disabled students.
- The decision-making worksheet is available on the NHDOE [Office of Academics & Assessment](#) and [Dynamic Learning Maps](#) webpages.

DLM Registration Process

- Students are registered for the statewide assessments via the i4see workbench. The i4see coordinator or designated staff member registers students (**including students attending out-of-district placements**) who have been enrolled between the first day of school and the time of the Anytime of Year (AOY) submission.
- The AOY is the primary and ongoing submission intended to keep an accurate roster of your students throughout the school year.
- The AOY submission populates the Assessment Roster with student data. The Assessment Roster helps schools to identify students who should participate in the assessments.
- Students who are eligible for the alternate assessment are added for DLM testing through the Assessment Roster.
- DLM student data from the Assessment Roster is uploaded manually into the Kite Educator Portal. Student data is uploaded daily into Educator Portal.
- Staff and teachers manage student data and retrieve reports and extracts from the Kite Educator Portal related to testing.
