After registering via a Zoom link above, you will receive a confirmation email from Sarah Souza or Amy Jenks noreply@zoom.us for the training session you just registered for containing information about how you will join that specific Zoom training on the date and time noted in the chart above.

We encourage you to copy and paste the information you receive on how to join this webinar into your calendar on the day and time of the event to make it easier to locate the log in link on that day for that training.

Training materials will be emailed to registered participants the day before each of the trainings. As well as participants will receive a professional development certificate by email following each training they attend (within 1-2 business days). Both of these emails will come from Sarah Souza so please look for them.

Please note: The link that you receive is a unique login for you. Please do not share your link.

For questions about the various trainings, please contact Amy Jenks at Amy.Jenks@doe.nh.gov or (603) 271-3842.

Training Descriptions:

Written Prior Notice Guidance ~ This professional development for Written Prior Notice (WPN) was created with stakeholder input in response to district requests for the Bureau to provide guidance regarding the use of and the content of WPNs. This training utilizes IDEA regulations as a guide to remind participants of the intent of the WPN, when districts should use a WPN, and the required components of the form. The guidance document and model WPN form will be shared along with sample compliant WPNs.

Specially Designed Instruction ~ Participants will learn what specially designed instruction is as defined by IDEA and how it applies to students with disabilities. They will gain a practical understanding of specially designed instruction, and the means in which it can be delivered as a service to special education students. Additionally, participants will learn how it is merged into the IEP using the special education process in a sequential and cyclical manner beginning with using evaluation data to describe unique student needs based upon present levels of academic and function performance, then identifying specific areas of specially designed instruction incorporated into special education services combined with annual measurable goals and progress monitoring.

Measurable Annual Goals ~ Participants will learn how to use the student information/evaluation data to write Present Levels of Performance of Academic Achievement and Functional Performance (PLOAAFP –IEP Page 2). They will learn to use the pertinent student evaluation data combined with other current observation and assessment data to write present levels for each annual goal. They will learn what components need to be included in the writing of age – appropriate measurable annual goals and objectives based on each annual goal present level information; and how to write measurable annual IEP goals and objectives to help build the student skills so they can access, participate, and make progress in the general curriculum.

Indicator 13: Secondary Transition Compliance Monitoring ~ Secondary Transition planning is monitored through Individualized Education Program reviews at every school district every year starting during the 2022-2023 school year. In this session, attendees will learn about the compliance requirements on the Indicator 13 Compliance Checklist and how to use the new Paper Clip feature in NHSEIS to attach required evidence to a selected student's IEP in NHSEIS. We will explain the new monitoring process and how a district can prepare.
