The third round of SAFE grants closed on November 30, 2023. The department received 630 applications for projects totaling \$21 million. The applications were presented to the Public School Infrastructure (PSI) Commission on December 6, 2023. The commission recommended the newly appropriated \$9.7 million PSI funds be awarded to schools that did not receive grants in rounds one or two and any remaining funds be awarded on a first come first served basis. It was recommended by the commission that awards be capped at \$100,000 per school. It was recommended that applications not listed above be put on a waitlist. **The list above represents applications for projects at schools that did not receive a SAFE Grant in round 1 and 2, as well as all eligible applications received by October 30, 2023 3:27:09 PM. This is not a list of approvals.** The applications recommended will be reviewed by the Joint Legislative Fiscal Committee and Governor & Council early next year. If approved, applicants will be notified and grants will be managed by the Grants Management System (GMS).
