***Definition of Restraint:**

"Restraint" means bodily physical restriction, mechanical devices, or any device that unreasonably limits freedom of movement. It includes mechanical restraint, physical restraint, and medication restraint used to control behavior in an emergency or any involuntary medication.

Restraint shall not include :

- (1) Holding a child to calm or comfort the child, holding a child's hand or arm to escort the child safely from one area to another, or intervening in an ongoing assault or fight.
- (2) Brief periods of physical restriction by person-to-person contact, without the aid of medication or mechanical restraints, accomplished with minimal force and designed either to prevent a child from completing an act that potentially would result in physical harm to himself or herself or to another person, or to remove a disruptive child who is unwilling to leave an area voluntarily.
- (3) Physical devices, such as orthopedically prescribed appliances, surgical dressings and bandages, and supportive body bands, or other physical holding when necessary for routine physical examinations and tests or for orthopedic, surgical, and other similar medical treatment purposes, or when used to provide support for the achievement of functional body position or proper balance or to protect a person from falling out of bed, or to permit a child to participate in activities without the risk of physical harm.

(4) The use of seat belts, safety belts, or similar passenger restraints during the transportation of a child in a motor vehicle.

(5) The use of force by a person to defend himself or herself or a third person from what the actor reasonably believes to be the imminent use of unlawful force by a child, when the actor uses a degree of such force which he or she reasonably believes to be necessary for such purpose.
