Monitoring Review for Approval of
Private Provider Special Education
Programs**

**Second Start
Summary Report
2019 – 2020**

**James Snodgrass, Executive Director
Bill Mealey, Director Adolescent Services**

Coordinating Education Consultant;
Rebecca Fredette

Monitoring Visit Conducted on March 6, 2020
Report Date: April 6, 2020

Overview of the Second Start Program

Second Start's Alternative High School Program is a New Hampshire Department of Education, Bureau of Student Support Approved Special Education Program located in Concord, New Hampshire. Second Start's Alternative High School Program has the capacity to serve up to 20 male and female students in grades 10-12. Students enrolled in this program have primary disabilities in the areas of Emotional Disturbance, Multiple Disabilities, Other Health Impairment, Specific Learning Disability or Speech-Language Impairment. Second Start does not offer its own high school diploma. Credit for work completed in the Alternative Program is arranged with the referring school district. The leadership team at Second Start's Alternative Program consists of the Executive Director and Director of Adolescent Services.

Second Start's Alternative Program is designed to meet the needs of adolescents who have previously been unable to succeed in a traditional high school setting and is based on the belief that some students need a small, structured, and highly individualized school setting in which to make academic and personal progress. The primary objective of Second Start's Alternative Program is to develop students' skills in the basic academic areas of reading, writing and mathematics. Academic programming is highly individualized and is combined with participation in small group activities and discussions. Physical education and outdoor recreational activities are a regular part of this program.

It is a fundamental belief at Second Start that student' successes in academic areas have a very positive and observable impact on self-concept. The resulting improvement in self-image and self-confidence enables students to establish and maintain better relationships, improve functioning within a group, and develop more appropriate and satisfying social behavior.

Second Start's Alternative Program provides unique scheduling, allowing students flexibility and transition opportunities. The Alternative Program offers two sessions daily (one in the morning and another in the afternoon). Students can take two academic sessions if needing the credits. If they only need to take one academic session in order to satisfy credit requirements, students are able to participate in one of two Choices sessions (a course that uses a Personal & Social Responsibility curriculum) or a Transitional Employment Training (TET) placement.

Noteworthy Practices and Areas in Need of Refinement

Noteworthy Practices

During the monitoring visit, it had been revealed that the Second Start includes several practices in their teaching, lessons, and expectations, which are noteworthy. Such practices include:

- Personalized learning used as a teaching technique for instruction in state required curriculum to increase success aiming for the goal of graduation with a regular diploma;
- Embracing multiple styles of learning, including combining verbal information with visual examples, through the realization that every student is different and basing instruction on the knowledge and relationship that each teacher has of their students;
- Incorporating social and emotional regulation skills into instruction decreasing frustration and stress from both in school and what occurs outside of school that impact students' education, in conjunction with counseling in classes for generalization and in a quiet setting for specialized instruction;
- Frequent collaboration with school district administrators and teachers from neighboring public schools enabling students to take courses, including Career Technology Education and advanced classes; and to keep students connected with their home communities; and
- Implementation of new, integrated assistive technologies that allow students in the classroom to use individual devices to participate in lessons using Smart Technologies.
- Of special notice is the response from all of the staff at Second Start to an unexpected, horrific event that occurred while school was in session. Although the tragic event was crippling for students, teachers, support providers, and administrators, school resumed in a swift manner. Though returning to an environment filled with haunting memories, staff and students unified together to comfort each other and created sense of belonging with strong bonds. In doing so, the school, alongside students, adopted a puppy representing renewed beginnings and hope for the future.

Overview of the Monitoring Review for Approval of Special Education Programs Process

The Monitoring Review for Approval of Private Provider Special Education Programs process ensures that students with educational disabilities have access to; can participate in; and can demonstrate progress within the general education curriculum, thereby improving student learning. The primary focus of the monitoring review is to improve educational results and functional outcomes for all children with disabilities.

Monitoring is done on a cyclical basis. During the year prior to monitoring, the New Hampshire Department of Education (NHDOE), Bureau of Student Support (Bureau) offers training to each private provider who is involved in the monitoring process. Training encompasses writing Measurable Annual Goals, Written Prior Notice, Self-Assessment, and a topic selected by the private provider based on current need. During this time, the private

provider will be given the option to include a director from outside of their Local Education Agency (LEA) area to participate in the on-site file review, as well as at least one special education administrator from another private school who has been trained in the process by the Bureau. At the beginning of the school year in which the private provider is being monitored, the private provider will send the Bureau their completed application for renewal of Bureau special education approval/nonpublic school approval in addition to the program’s policy and procedure manual and any special education forms that are used by the private program. Following a review of these documents, the monitoring team will conduct an on-site review in which student files are examined for evidence of implementation of the policies and procedures through the special education process. The Bureau will also conduct a follow-up review to verify the implementation of corrective actions as defined in the summary report.

The New Hampshire Department of Education, Bureau of Student Support review members for Second Start’s on-site monitoring review included Rebecca Fredette, Joanne DeBello, and Karen Langley, Director of Academics, from Mount Prospect Academy, Inc.

Procedures and Effective Implementation

Each private provider must have special education procedures, and effective implementation of practices that are aligned and support the implementation of IDEA and the *New Hampshire Standards for the Education of Children with Disabilities*.

The monitoring team reviewed the following special education procedures for compliance with State and Federal regulations regarding administration, confidentiality of information, program requirements, responsibilities of private providers of special education implementation of IEPs, behavioral interventions, RSA 126-U Limiting the use of child restraint practices in schools and treatment centers, qualifications and requirements for instructional, administrative and support personnel, change in placement or termination of enrollment, physical facilities, health and medical care, photography and audio-visual recording, and emergency planning and preparedness.

Based on the review of Second Start’s special education procedures the monitoring team determined there were **3 findings of noncompliance**.

COMPLIANCE CITATIONS	AREA OF COMPLIANCE
Ed 1101.01	Procedures Based on Current NH Standards
<p>Finding of Noncompliance: In reviewing Second Start’s special education procedures the monitoring team was not able to find evidence of the current New Hampshire Standards for the Education of Children with Disabilities, Effective 3/24/2017, Amended 6/14/2018, Amended 8/9/2018. Also missing was a statement that the district is responsible for ensuring that the policies and procedures are current with IDEA, state laws and NH Standards.</p>	

Corrective Action regarding the Implementation of the Regulations: Second Start must revise its procedure manual to include a statement that these procedures are based on the current NH Standards.

Provide the revised procedures and a description of the method used to inform staff of the revision to the NHDOE as soon as possible but no later than 6 months from the date of this report.

COMPLIANCE CITATIONS	AREA OF COMPLIANCE
Ed1114.04(e)	Administration
Finding of Noncompliance: In reviewing Second Start's special education procedures the monitoring team was not able to find the statement of purpose shall be available to the public on request.	
Corrective Action regarding the Implementation of the Regulations: Second Start must revise its procedure manual to include evidence that the statement of purpose is available to the public upon request.	
Provide the revised procedures and a description of the method used to inform staff of the revision to the NHDOE as soon as possible but no later than 6 months from the date of this report.	

COMPLIANCE CITATIONS	AREA OF COMPLIANCE
Ed1119.01(b)(2)	Destruction of Information
Finding of Noncompliance: In reviewing Second Start's special education procedures the monitoring team was not able to find evidence that student records are sent back to LEA prior to destruction, that records can be stored in electronic form or any other form, and that the parent or adult student is provided a copy of destruction policy upon a student's discharge.	
Corrective Action regarding the Implementation of the Regulations: Second Start must revise its procedure manual to include information related to record destruction.	
Provide the revised procedures and a description of the method used to inform staff of the revision to the NHDOE as soon as possible but no later than 6 months from the date of this report.	

Private Provider Curriculum and Effective Implementation

As part of the review, the monitoring team looked for evidence that Second Start is providing students with access to the general curriculum. The monitoring team reviewed the grades 10 – 12 curriculum provided by Second Start for compliance with learning areas in Arts Education, English/Language Arts, Health Education, Physical Education, Family & Consumer Science, Information & Communications Technologies, Mathematics, Science, Social Studies, and Technology Education, pursuant to Ed 306.261(b)(1) and (2) & Ed 306.27(c).

Based on the review of Second Start's curriculum, the monitoring team determined that there were **no findings of noncompliance**.

Personnel

The Bureau of Special Education has reviewed Second Start personnel certifications using the New Hampshire Educator Information System. The review process was for educators employed during 2018 – 2019 school year.

The personnel roster that was provided by Second Start was compared to the data in the New Hampshire Educator Information System. Each personnel member's endorsement was compared to the subject/assignment. This process was used for personnel that hold Beginning Educator Certification (BEC) and Experienced Educator Certification (EEC). If the endorsement was appropriate to the subject/ assignment then the renewal date of the endorsement was verified to ensure that the endorsement was current.

If there was a discrepancy between endorsement and the subject/assignment, the private provider was given an opportunity to verify the data. If the discrepancy could not be resolved a finding of noncompliance was made based on Personnel Standards pursuant to Ed 1114.10(a), 34 CFR 300.18, and 34 CFR 300.156.

Based on the review of Second Start's personnel certifications, the monitoring team determined there were **no findings of noncompliance**.

Approval Requirements

Each private provider must meet the requirements for special education program approval pursuant to The Individuals with Disabilities Education Improvement Act (IDEA) (2004), The New Hampshire Standards for the Education of Children with Disabilities, and New Hampshire State Statutes (RSA 186-C:5, RSA 189:64). If seeking nonpublic school approval each private provider must meet the requirements of The New Hampshire Rules for the Approval of Nonpublic Schools (Ed 400, 2005).

The monitoring review for the approval of private provider special education programs includes an application with specified materials that must be submitted to the Bureau by October 15 in the year they are monitored.

Based on the review of the Second Start's application materials, the monitoring team determined there were **no findings of noncompliance**.

Monitoring of the Implementation of Special Education Process

Private providers are responsible for implementing the special education process in accordance with IDEA and the *New Hampshire Standards for the Education of Children with Disabilities*. The self-assessment data collection form highlights the private providers' understanding of the requirements of IDEA and the *New Hampshire Standards for the*

Education of Children with Disabilities and was reviewed during the monitoring visit. Each area of compliance on the self-assessment data collection form clearly outlines whether the compliance is either a requirement of both IDEA and the *New Hampshire Standards for the Education of Children with Disabilities* or a requirement of solely the *New Hampshire Standards for the Education of Children with Disabilities*. The private provider cites the evidence of compliance in the self-assessment prior to the monitoring visit. During the monitoring visit, the monitoring team verified the evidence of compliance based on review of the student file, using the private providers' self-assessment as a resource. In the case of student specific finding(s) of noncompliance, the sending District is cited for noncompliance, as well as the private provider.

Based on this review, the Bureau of Student Support identified findings of noncompliance with IDEA and the *New Hampshire Standards for the Education of Children with Disabilities*. The findings include the citation, the area of noncompliance, and the required corrective actions, which include timelines for demonstrating correction of noncompliance. Student specific information will not be included in the report but will be provided to the private provider and, when appropriate, a district's Administrator of Special Education.

There are two main components to the corrective actions entitled, "*Corrective Action of Individual Instance of Noncompliance*" and "*Corrective Action Regarding the Implementation of the Regulations*". The first component, "corrective action of individual instance of noncompliance," is for any noncompliance concerning a child-specific requirement. There must be evidence that the private provider has corrected each individual case of noncompliance, unless the child is no longer placed at the program. These areas must be corrected as soon as possible with state timelines given in the report for each area. The Bureau will return to the program, typically within 3 months of the date of the report, to verify compliance for each individual instance identified in the report. The second component, "corrective action regarding the implementation of the regulations" would typically involve the private provider's participating in professional development training to appropriate personnel with regards to areas found to be in noncompliance. The Bureau will review updated data collected after the identification of noncompliance to demonstrate that the program is correctly implementing the specific requirement. This involves a follow-up on-site review of new student files, selected typically within one year of the original on-site compliance & improvement monitoring.

Overview of the Student Specific Findings of Noncompliance

The chart below identifies the area of compliance based on student files that were reviewed by the compliance & improvement monitoring team during the onsite visit. The chart is broken down into the **compliance citations** and **area of compliance**. The compliance citations are based on the *CFR* found in the federal regulations of IDEA and the *Ed* found in *The New Hampshire Standards for the Education of Children with Disabilities*. The chart aligns the regulatory components to the numbered questions in the self-assessment. Regulatory

components and self-assessment numbers are bolded in instances where noncompliance was noted by the compliance & improvement monitoring team.

The **review status** identifies the **number of files reviewed** for the self-assessment question as well as the number of files that were found to be in compliance. For example “5 out of 6 files demonstrated evidence that a copy of the procedural safeguards, available to the parents of a child with a disability, was given to the parent one time in the school year.” This means that 6 files were reviewed and 5 files were found to be in compliance.

In cases where there was a finding of noncompliance for a particular student, the chart identifies the **First Stage Corrective Action of Individual Instance(s) of Noncompliance**. In the case of an individual instance of noncompliance, the corrective action would generally involve the IEP team convening to resolve the finding of noncompliance. Timelines for these corrective actions are also noted. For the First Stage Corrective Actions, the Bureau will return to the private provider program within 3 months following the program receiving written notification of noncompliance (the report) to review all student files in which there were findings of noncompliance in order to verify compliance with the corrective action stated in the report.

In cases where there was a finding of noncompliance for a particular student, the next section of the chart identifies the **First Stage Corrective Action Regarding the Implementation of the Regulation**. This section informs the private provider program of any practices or procedures which need to be corrected as well as trainings for personnel to inform them of the corrections as a result of the findings of noncompliance. The required corrective action for the program and a timeline for the corrective action is also provided.

In cases where there was a finding of noncompliance for a particular student, the final section of the chart identifies the **Second Stage Corrective Action Regarding the Implementation of the Regulation**. Identified in this section will be the number of new student files that will be selected at the program to demonstrate correct implementation of the regulations for the section of the self-assessment in which noncompliance was found. For the Second Stage Corrective Actions, the Bureau will verify compliance through a subsequent on-site review of the new files within one year from the date of the report. **The total number of student files selected for the Second Stage Corrective Action Regarding the Implementation of the Regulation will not exceed the original number of files reviewed at the private provider program.**

Findings of Noncompliance

When determining compliance, the NHDOE reviews the currently agreed upon/signed IEP at the on-site monitoring visit. During the on-site monitoring visit there were **no files** which could not be reviewed for sections B(#2), D(#11-17), E(#18-22), F(#23), G (#24-26), H(#27), I(#29), J(#30-31), K(#32-41), L(#42), and M(#43-45) as there was no parent and/or LEA signature indicating consent / approval of the provisions of the IEP.

COMPLIANCE CITATIONS		AREA OF COMPLIANCE
Ed 1114.05		A. Record of Access; Confidentiality Requirements
Self-Assessment Question Number & Regulatory Component		Review Status
1.	34 CFR 300.614 Ed 1119.01(a)	2 out of 2 IEP files demonstrated evidence of a record of parties that have obtained access to the education records collected, maintained or used under Part B of the Act, including the name of the party, the date access was given, and the purpose for which the party is authorized to use the records.

COMPLIANCE CITATIONS		AREA OF COMPLIANCE
